Miskito Translator:

The Bible Translator ,1971 **The Awakening Coast** Karl Offen,Terry Rugeley,2014-06-01 The indigenous and Creole inhabitants Mosquitians of African descent of the Mosquito Reserve in present day Nicaragua underwent a key transformation when two Moravian missionaries arrived in 1849 Within a few short generations the new faith became so firmly established there that eastern Nicaragua to this day remains one of the world s strongest Moravian enclaves The Awakening Coast offers the first comprehensive English language selection of the writings of the multinational missionaries who established the Moravian faith among the indigenous and Afro descendant populations through the turbulent years of the Great Awakening of 1881 to 1882 when converts flocked to the church and the mission s membership more than doubled The anthology tracks the intersection of religious political and economic forces that led to this dynamic religious shift and illustrates how the mission s first fifty years turned a relatively obscure branch of Protestantism into the most important political and spiritual institution in the region by contextualizing the Great Awakening Protestant evangelism and indigenous identity during this time of dramatic social change **A Translator's Handbook on the Gospel of Mark** Eugene Nida,Bratcher,1961-06 **A Translator's Handbook on the Gospel of Luke** Reiling,J.L. Swellengrebel,2023-04-17 This handbook like others in this series concentrates on exegetical matters that are of prime importance for translators and it attempts to indicate possible solutions for translational problems that may arise because of language or culture In this respect the Handbook attempts to deal with the full range of information important to translators However the authors do not attempt to provide help that other theologians and scholars may be seeking but which is not directly useful for the task of translating It is assumed that such information is available elsewhere **Namedropping** Richard Elman,1999-06-10 In the course of the same old race I find myself writing about knowing some people how fame seems to set some people apart from us once known I was astonished by Ernest Hemingway s small weak handshake when we were introduced at Scribners by John Hall Wheelock and by the jolt of force with which Elie Wiesel squeezed my hand How long ago seems knowing too when I first meet Isaac Singer he asks me Who is Mr Saul Bellow We re on the Upper West Side in his apartment next to the funeral parlor A yellow parakeet hops around on Singer s bald forehead Singer s great comic story of faith Gimpel the Fool has only recently been published from Yiddish into English in a translation by Saul Bellow They re both still a long way from Stockholm Do you know him Can you tell me who this Mr Bellow is he asks It was not always possible to guess Singer s motives in acting as though he was not impressed with worldly reputations His features of a medieval Polish saint even to a faint white haired tonsure effect around the crown of his skull were backlit by the glowing monitor from his mischievous incubus from the Preface These are Richard Elman s candid snapshots in prose of the various mostly literary celebrities he encountered during his four decades as a working writer and journalist among them Isaac Bashevis Singer Tillie Olsen Bernard Malamud Faye Dunaway Hunter S Thompson and other important artists and writers who were Elman s teachers

and occasionally adversaries Engagingly written and never superficial these portraits and anecdotes in many cases strike to the center of each subject's art To many readers these persons are just names Elman brings them to life while never simplifying or overdramatizing their work

The Silence of the Miskito Prince Matt Cohen, 2022-11-22 Confronting the rifts created by our common conceptual vocabulary for North American colonial studies How can we tell colonial histories in ways that invite intercultural conversation within humanistic fields that are themselves products of colonial domination Beginning with a famous episode of failed communication from the narrative of the freed slave Olaudah Equiano *The Silence of the Miskito Prince* explores this question by looking critically at five concepts frequently used to imagine solutions to the challenges of cross cultural communication understanding cosmopolitanism piety reciprocity and patience Focusing on the first two centuries of North American colonization Matt Cohen traces how these five concepts of cross cultural relations emerged from and continue to evolve within colonial dynamics Through a series of revealing archival explorations he argues the need for a new vocabulary for the analysis of past interactions drawn from the intellectual and spiritual domains of the colonized and for a historiographical practice oriented less toward the illusion of complete understanding and scholarly authority and more toward the beliefs and experiences of descendant communities *The Silence of the Miskito Prince* argues for new ways of framing scholarly conversations that use past interactions as a site for thinking about intercultural relations today By investigating the colonial histories of these terms that were assumed to promote inclusion Cohen offers both a reflection on how we got here and a model of scholarly humility that holds us to our better or worse pasts

Toward a Science of Translating? Stefan Felber, 2025-03-27 Eugene A Nida is one of the pioneers and founders of modern translation theory coining the terms dynamic equivalence and formal equivalence and energetically promoting the former though in his latter years preferring the term functional equivalence Originally formulated for the Bible Translation efforts amongst people groups without the Bible Nida's theories of translation have also been widely influential in Translation Studies making this presentation of Eugene A Nida's life 1914-2011 and assessment of his works especially timely and significant Stefan Felber is a German Old Testament scholar former seminary professor and author of the German only *Wesen und Würde des Wortes Biblisch-theologische Grundlagen für das Verständnis von Sprache und Kommunikation The Nature and Dignity of the Word Biblical Theological Foundations for Understanding Language and Communication in Zwischen Babel und Jerusalem Aspekte von Sprache und Übersetzung* among other works As such he is uniquely qualified to offer this fair minded and masterful yet critical evaluation of Nida's model of translation doing so from a rich variety of disciplines including exegesis theology philology and philosophies of language Whether one agrees or disagrees with either Nida or Felber I highly recommend this rigorous and wide ranging exposition for advancing informed dialogue and promoting further understanding and advances in Translation Studies Professor Tom McCormick Tyndale University College Toronto Although the theory of Dynamic or Functional Equivalence was the most widely used method in global Bible translation after the Second World War there has

been no comprehensive study of its foundations and how it was developed by Eugene Nida Filling this gap is one of the great merits of Felber's study Felber while showing great respect for Nida critically evaluates Dynamic Equivalence from various perspectives exegetical theological philosophical and linguistic This multi dimensional nuanced approach provides the reader with thought provoking and helpful insights that further the discussion in important ways Felber's study is a must read for all who deal with language and translation in theology and the church in Bible translation and mission Prof Dr Markus Zehnder Internationale Hochschule Bad Liebenzell Evangelische theologische Fakultät Leuven Ansgarskolen Kristiansand Stefan Felber's *Toward a Science of Translating* is a landmark study in Biblical Translation Theory focussing on Eugene Nida 1914 2011 who for many years was a central figure in the American Bible Society and the United Bible Societies Nida has been described as probably the world's leading scholar on translation and his theory of Dynamic or Functional Equivalence provided a leading paradigm for Bible translators for decades In this thorough analysis of his work and its reception Felber highlights a number of weaknesses as well as some strengths affiliated with Nida's theory promoting translation theory based on reader oriented thought for thought patterns rather than traditional source oriented analysis of textual form and content Felber's evaluation raises a critical question Are facets of the biblical text pertaining to biblical language and hermeneutics theology and the transcendent downplayed in Nida's addressee oriented approach to translation I hope this book will be widely read by translators biblical scholars and others interested in translation of the Bible Dr Tomas Bokedal Associate Professor of New Testament and Early Christianity NLA University College Norway Docent of New Testament Exegesis Lund University Sweden
