Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is making a meal or recipe then portioning it out to grab and go meals for later. If you've ever kept your leftovers from dinner to take with you for lunch then you've already mini meal prepped. Generally though meal prepping refers to preparing 3-7 days worth of food at a time. Think of it like making your lunches for the week all at once instead of making your lunch every morning. You can use this same technique for breakfast, lunch, dinner, and snacks. Meal prepping doesn't necessarily waste and reduce time to eat outside unless you plan ahead or a budget. When making your meal plan, ask yourself the question: "How long will I be able to eat these meals without having to do it myself each day?" Meal prepping is not for everyone. It is good for people who value convenience and free more time than cost. With meal prepping you generally eat the same thing for a few days in a row so if you don't like leftovers or get bored with food, meal prepping isn't for you. If having more control over what you eat, maximizing your time, your budget, or making sure you're eating something different every day, meal prepping is a great idea. Generally, meal prepping is seen as a meal for yourself or maybe one other person, not a whole family. Meal prepping for a whole family would be quite difficult but it would be a great idea if you have a small family. A fridge is a great place to store your meal prep. A slow cooker in the kitchen is also a great place to store your meal prep. In addition to the way food is packed, the individual nuances of your refrigerator can impact the quality of your refrigerated meal. The size of the refrigerator, the type of refrigerator, and the way you use the refrigerator can all impact the quality of your meal prep. Always begin with the refrigerator guidelines that the FDA and the National Institute of Standards and Technology (NIST) have set for you. In general, I don't like to store more than five days worth of meal prep. I find that by the fifth day, the food is usually not as good as it was when I first made it. **Meal Prep Ideas** Angela Williams, 2017-07-06 Are you looking for some creative and very practical meal prep ideas?
