Minutemen The Battle To Secure Americas Borders:

Minutemen Jim Gilchrist, Jerome R. Corsi, 2006 This book is a first hand account from the frontlines and what it says will shock you Jim Gilchrist teams up with Jerome Corsi the co author of *Unfit for Command* the book that derailed John Kerry's presidential campaign to describe in vivid detail how the nation's southern border has disintegrated into a Wild West of human trafficking drug smuggling and violent gangs Readers of this disturbing and timely book will learn how Mexico encourages the mass emigration of millions of impoverished peasants and why the Mexican government will stop at nothing to keep the border open The Catholic Church uses its power and influence to subvert immigration laws and why Church leaders are speaking out in favor of amnesty American taxpayers are forced to pay the staggering economic and cultural price tag of illegal immigration and why our government wants to keep the true costs hidden from the public Like their Revolutionary War predecessors who defended America against a hostile foreign power today's Minutemen have risen up to answer their nation's call against another invasion *Minutemen* is their story as well as an urgent call to arms to all of their countrymen

Citizens Without Frontiers Engin F. Isin, 2012-11-02 States define who their citizens are and exert control over their life and movements But how does such power persist in a global world where people ideas and products constantly cross the borders of what the states see as their sovereign territory This groundbreaking work sets to examine and interpret such challenges to offer a new way of thinking about citizenship Abandoning the sovereignty principle it develops a new image of citizenship using the connectedness principle To do so it interprets acts of citizenship by following activist citizens across the world through case studies from Wikileaks and the Gaza flotilla to China's virtual world and Darfur Written by a leader in the field this accessible and original work imagines citizens without frontiers as a politics without community and belonging inclusion without exclusion where the frontier becomes a form of otherness that citizens erase or create This unique work brings forth a new and creative way to approach citizenship beyond boundaries that will appeal to anyone studying citizenship social movements and migration

Covering the Border War Sang Hea Kil, 2019-11-08 *Covering the Border War* How the News Media Create Crime Race Nation and the USA Mexico Divide examines the notion of the body politic in border newspaper coverage of the USA Mexico divide and how the nation and immigration are racially imagined in crime news discourse where whiteness is associated with order and brownness is associated with disorder in a variety of imaginative nativist ways By applying critical discourse analysis methodology to the Los Angeles Times Arizona Republic Albuquerque Journal and Houston Chronicle during a peak epoch of border militarization policies 1993 2006 brownness emerges through a news crime frame that reflexively shows the values and meanings of whiteness and the nation At the body scale border crossings threaten the whiteness of the national body through suggestions of rape and disfigurement Border news discourse feminizes the nation with nurturing resources and services under threat of immigrant rape as well as expresses racial anxiety about a changing face of the nation Border news coverage constructs immigrants as home intruders

at the house scale both human and animal Whiteness at this scale reflexively signifies a law abiding rightful owner of property protecting against criminal trespassing Brown immigrants are also seen as wild animals which constructs whiteness burdened with the task of animal management Whiteness at the regional scale suggests a masculinized militarized battleground or a settled region threatened by a brown cataclysmic flood Finally the nation scale complements the body scale but in a more contemporary and scientific way Whiteness reflects a body politic fighting the disease of cancer immigration in two ways with an imagined militaristic immune system and with hi tech aggressive operations This diseased body politic communicates whiteness and nativism about the border through discursive border symptoms and border operations that represent the intersection of immunology discourse the racial construction of the body politic and anxiety about postmodern economic transformation and its impact on national borders

Radical Future Pasts Romand Coles, Mark Reinhardt, George Shulman, 2014-06-17 Written by both well established and rising new scholars *Radical Future Pasts* seeks to open up new possibilities for the practical application of political thought Unlike conventional state of the discipline collections this volume does not summarize where the field of political theory has been Rather than accept traditional versions of the political past the contributors reinterpret both canonical and current texts to demonstrate how politics can be theorized and applied in new ways

Crossing and Controlling Borders Mechthild Baumann, Astrid Lorenz, Kerstin Rosenow, 2011 This volume highlights the impact of border controls on migrants journeys in two major areas of immigration the European Union and the United States of America In order to show the linkages between border control policies and migratory practices the book combines empirical insights from ethnography with approaches from political science Describing migrants realities reveals that the impact of border control policies goes beyond the actual border area affecting many lives and states

The Late Great USA Jerome R. Corsi, 2007 In *The Late Great USA* Jerome Corsi argues that the benignly named Security and Prosperity Partnership created at a meeting between George W Bush Stephen Harper and Vincente Fox is in fact the same kind of regional integration plan that led Europe to form the EU According to Corsi the elites in Europe behind the EU knew that it would be necessary to conceal from the peoples of Europe what was being done in their name until the process was so far advanced that it had become irreversible Could the same thing be happening here Is American sovereignty doomed Using dozens of documents secured through the Freedom of Information Act and his trademark hard hitting interviews Corsi sets out a chilling view of America s possible harmonized future one being created covertly without voter input or Congressional oversight Could our government s unfathomable position on illegal immigration be tied to the prospect of an integrated North American Union

No Borders Emma Bell, 2012 *You Decide! 2007* John T. Rourke, 2007 No country no culture no person today is untouched by what happens in the rest of the world Technological innovation environmental degradation economic gain each have distinct forms of expression But this marvelous diversity of insight has the potential for inspiring dialogue which can enrich everyone s pursuit of wisdom All faith traditions turn to compassion as a guiding principle for

living a good life It is the task of all people with an aspiration to spiritual perfection to affirm the fundamental value of the compassion In this way we can truly develop a deep recognition of the value of other faiths and on that basis we can cultivate genuine respect In *Toward a True Kinship of Faiths* the Dalai Lama also explores where differences between religions can be genuinely appreciated without serving as a source of conflict The establishment of genuine harmony is not dependent upon accepting that all religions are fundamentally the same or that they lead to the same place Many fear that recognizing the value of another faith is incompatible with having devotion to the truth of one s own Nevertheless the Dalai Lama profoundly shows how a sincere believer can with integrity be a pluralist in relation to other religions without compromising commitment to the essence of the doctrinal teachings of their own faith An issue of central importance for the Dalai Lama personally and for the entire world in general *Toward a True Kinship of Faiths* offers a hopeful yet realistic look at how humanity must step into the future **Intelligence Report** ,2009 **The Social Contract** ,2006 **Illegal Immigration**
