Mirage Nina Burleigh, 2023-11-21 The story of Napoleon's invasion of the Nile Valley the scholars and scientists who tagged along and the birth of Egyptology A fascinating read San Francisco Chronicle Two hundred years ago only the most reckless or eccentric Europeans had dared to traverse the unmapped territory of the modern day Middle East But in 1798 more than 150 French engineers artists doctors and scientists even a poet and a musicologist traveled to the Nile Valley under the command of Napoleon Bonaparte and his invading army Hazarding hunger hardship uncertainty and disease Napoleon's savants risked their lives in pursuit of discovery The first large scale interaction between Europeans and Muslims in the modern era the audacious expedition was both a triumph and a disaster resulting in finds of immense historical and scientific importance including the ruins of the colossal pyramids and the Rosetta Stone and in countless tragic deaths through plague privation madness or violence In this account journalist and New York Times bestselling author Nina Burleigh brings readers back to the landmark adventure at the dawn of the modern era that ultimately revealed the deepest secrets of ancient Egypt to a curious continent An absorbing glimpse of Napoleon's thwarted bid for a grand French empire and its intellectual fruits Publishers Weekly Peppered with multitudes of facts digressions and anecdotes The New York Times Book Review Editor's Choice Illuminates an unfamiliar moment in the history of science Burleigh's storytelling ability is mesmerizing Library Journal

Napoleon's Library Louis N Sarkozy, 2025-11-04 Explores the enigmatic Napoleon Bonaparte's intimate relationship with books and history going far beyond his more militaristic and imperial fame Napoleon Bonaparte held absolute political power in France and his influence stretched across Europe and beyond Yet he remained between leading his armies and ruling over a vast empire an indefatigable reader who even carried libraries into battle Bonaparte's love of the written word birthed in childhood and nurtured as an adolescent and young adult never left him He was a lover of literature for its own sake often swooning over melodramatic love stories but he also understood the value of books as instruments of power Before his campaigns he poured over dozens of texts relating to the relevant theaters geography population trade and history When contemplating grave decisions such as his divorce to Empress Josephine he consulted the historical record for useful precedents to justify and inform his actions To bolster his troops' morale during challenging times he constantly referenced history in his proclamations making his contemporaries feel as if they were actively shaping history They were The library of an individual is the key to his mind Behind the grandiose paintings of the victorious conqueror and the constructions of the propagandist stands the reader This book is an attempt to glimpse Napoleon's character without the veneer of imperial glory What was he like alone at night by his fireplace What thoughts percolated in the mind of the ambitious 20 year old isolated in a little room while theorizing about man's happiness Who are the literary and historical figures which can claim to have had impacted his life Who were his favorite authors Through this book the reader will embark on a literary promenade with the great general and statesmen In these pages are found the

emperor's favorite authors And with them the key to understanding his mind *Hegel's Interpretation of the Religions of the World* Jon Stewart, 2018-09-12 In his Lectures on the Philosophy of Religion Hegel treats the religions of the world under the rubric the determinate religion This is a part of his corpus that has traditionally been neglected since scholars have struggled to understand what philosophical work it is supposed to do In Hegel's Interpretation of the Religions of the World Jon Stewart argues that Hegel's rich analyses of Buddhism Hinduism Zoroastrianism Judaism Egyptian and Greek polytheism and the Roman religion are not simply irrelevant historical material as is often thought Instead they play a central role in Hegel's argument for what he regards as the truth of Christianity Hegel believes that the different conceptions of the gods in the world religions are reflections of individual peoples at specific periods in history These conceptions might at first glance appear random and chaotic but there is Hegel claims a discernible logic in them Simultaneously a theory of mythology history and philosophical anthropology Hegel's account of the world religions goes far beyond the field of philosophy of religion The controversial issues surrounding his treatment of the non European religions are still very much with us today and make his account of religion an issue of continued topicality in the academic landscape of the twenty first century

Recasting the Past Derek R. Peterson, Giacomo Macola, 2009-09-15 The study of intellectual history in Africa is in its infancy We know very little about what Africa's thinkers made of their times Recasting the Past brings one field of intellectual endeavor into view The book takes its place alongside a small but growing literature that highlights how in autobiographies historical writing fiction and other literary genres African writers intervened creatively in their political world The past has already been worked over by the African interpreters that the present volume brings into view African brokers pastors journalists kingmakers religious dissidents politicians entrepreneurs all have been doing research conducting interviews reading archives and presenting their results to critical audiences Their scholarly work makes it impossible to think of African history as an inert entity awaiting the attention of professional historians Professionals take

their place in a broader field of interpretation where Africans are already reifying editing and representing the past The essays collected in *Recasting the Past* study the warp and weft of Africa's homespun historical work Contributors trace the strands of discourse from which historical entrepreneurs drew highlighting the sources of inspiration and reference that enlivened their work By illuminating the conventions of the past Africa's history writers set their contemporary constituents on a path toward a particular future History writing was a means by which entrepreneurs conjured up constituencies claimed legitimate authority and mobilized people around a cause By illuminating the spheres of debate in which Africa's own scholars participated *Recasting the Past* repositions the practice of modern history *Talking Book Topics*, 2009-11
