Missing The Laughter:

Missing the Laughter Jude Barnes, 2007-04-18 You must ask yourself one very important question Why give up the drug and maintain the behavior I suspect that we look to the drug of our choice whether it is pills alcohol another person or even the behavior itself as the problem when it isn't I suspect that the problem is the drama involved The drug we use to access that emotional life is secondary to the fact that we subconsciously feel the need to be drawn into an emotional life Once we know what draws us into the drama and our actual addiction to it so much so that we willingly create it in our everyday lives via our drug of choice then it loses its power over us What it really boils down to is simply growing up and taking responsibility for our actions and for our lives Imagine the many splendid things that we miss because of the superfluous drama with which we fill our lives Think about it

Life in School Martyn Hammersley, Peter Woods, 2020-09-10 There can be little doubt that pupils' own interpretations of what happens in their schools represent a crucial link in the educational chain We need to understand how pupils respond to different forms of pedagogy and school organization and why they respond in the ways they do in order to increase the effectiveness of our schooling In the ten years prior to first publication ethnographic studies of pupils in schools had increased in number and importance They had come to represent a leading area of inquiry which is still of relevance to practising and student teachers today However this material was not easily accessible being widely distributed across educational and sociological journals and books Originally published in 1984 this book collects together significant contributions to the field in a single

volume and will still be of relevance to practising and trainee teachers and students of sociology and education
