The Time Keeper Mitch Albom,2012 Given one last chance at redemption, Father Time, the inventor of the world's first clock, must teach two earthly people the true meaning of time: a journey that leads him to a teenage girl who is about to give up on life and a wealthy businessman who . . . *The Time Keeper* Mitch Albom,2012-09-04 From the author whose inspired millions worldwide with books like *Tuesdays with Morrie* and *The Five People You Meet in Heaven* comes his most imaginative novel yet, *The Time Keeper*, a compelling fable about the first man on Earth to count the hours. The man who became Father Time. In Mitch Albom's exceptional work of fiction, the inventor of the world's first clock is punished for trying to measure God's greatest gift. He is banished to a cave for centuries and forced to listen to the voices of all who come after him seeking more days, more years. Eventually, with his soul nearly broken, Father Time is granted his freedom along with a magical hourglass and a mission: a chance to redeem himself by teaching two earthly people the true meaning of time. He returns to our world now dominated by the hour counting he so innocently began and commences a journey with two unlikely partners: one a teenage girl who is about to give up on life, the other a wealthy old businessman who wants to live forever. To save himself, he must save them both. And stop the world to do so. Told in Albom's signature spare, evocative prose, this remarkably original tale will inspire readers everywhere to reconsider their own notions of time, how they spend it, and how precious it truly is. The Tyranny of Speed: How to Reclaim Your Time in a Hurried World Sandy Clarke, Eugene Tee,2025-09-12 *The Tyranny of Speed: How to Reclaim Your Time in a Hurried World* draws on psychological research, mindfulness, and personal experience, encouraging readers to reconsider the societal narratives around productivity and redefining our relationship with the prevailing culture of immediacy and perpetual busyness. At its heart, *The Tyranny of Speed* invites us to step off the treadmill of relentless striving, to savour the beauty in everyday moments, and to cultivate a mindful and ultimately more meaningful way of being. Through their reflections and insights, the authors offer readers valuable strategies to create a life with increased purpose and contentment in an age of shallow distraction. *Life as unusual work as usual* Ayon Banerjee,2023-08-02 NAME **The Far Horizons of Time** H. Chris Ransford,2015-04-24 What

is Time Assuming no prior specialized knowledge by the reader the book raises specific hitherto overlooked questions about how time works such as how and why anyone can be made to be at the very same instant simultaneous with events that are actually days apart It examines abiding issues in the physics of time or at its periphery which still elude a full explanation such as delayed choice experiments the brain's perception of time during saccadic masking and more and suggests that these phenomena can only exist because they ultimately obey applicable mathematics thereby agreeing with a modern view that the universe and everything within it including the mind are ultimately mathematical structures It delves into how a number of conundrums such as the weak Anthropic Principle could be resolved and how such resolutions could be tested experimentally All its various threads converge towards a same new vision of the ultimate essence of time seen as a side effect from a deeper reality

To Save Time Is To Lengthen Life (English) Dr. Sahadeva Das,2018-01-01 Time is our most precious resource All we have in life is time Often we realize the importance of time only when there is little of it left Our greatest capital asset is our unexpired years of productive life We can not influence the supply of this resource C S Lewis says The future is something which everyone reaches at the rate of sixty minutes an hour whatever he does whoever he is This realization is not very easy to come by It is said that a wise person does at once what a fool does at last Both do the same thing only at different times
