Highest Potential Vanessa Siddle Walker, 2000-11-09 African American schools in the segregated South faced enormous obstacles in educating their students But some of these schools succeeded in providing nurturing educational environments in spite of the injustices of segregation Vanessa Siddle Walker tells the story of one such school in rural North Carolina the Caswell County Training School which operated from 1934 to 1969 She focuses especially on the importance of dedicated

teachers and the principal who believed their jobs extended well beyond the classroom and on the community's parents who worked hard to support the school. According to Walker, the relationship between school and community was mutually dependent. Parents sacrificed financially to meet the school's needs, and teachers and administrators put in extra time for professional development, specialized student assistance, and home visits. The result was a school that placed the needs of African American students at the center of its mission, which was in turn shared by the community. Walker concludes that the experience of CCTS captures a segment of the history of African Americans in segregated schools that has been overlooked and that provides important context for the ongoing debate about how best to educate African American children.

Snarr, 2014-10-31 Economics has been dubbed the dismal science since Thomas Carlyle coined the phrase in 1849. The 2008 presidential candidate who said Economics is something that I've really never understood probably sides with this view. So why is economics so dismal to so many? Is it because it has become too mathematical? Is it because traditional textbooks fail to connect topics and models in a concise, cohesive, and meaningful way? Is it because the computer simulations that are used to teach economic principles stifle students' imagination, contribute to a dependent learning style, and fail to stimulate interest in the subject matter? Wetzstein, 1988. Or is it because economists from different schools of economic thought rarely agree on

anything This book uses MAPLE and the simulation models that I developed in Learning Basic Macroeconomics 2014 to make teaching or learning economics more favorable MAPLE is ideally suited for this because it allows users to assemble and systematically combine the various models that form the aggregate market model frees users from doing tedious calculations and algebraic manipulations and is as easy to use as Microsoft WORD Building and analyzing the macroeconomic model using MAPLE is a fun way to learn the dismal science of economics **From Muskeg to Murder** Andrew F.

A Theologian and a Baseball Fan Dan Flanagan, 2022-05-06 There are a number of baseball players who live out a profound faith There are also people of faith who love the game of baseball To find people who understand the nuances of the game of baseball through a framework of theology is unique A Theologian and a Baseball Fan What Could Go Wrong explores aspects of the game of baseball that evoke images from biblical stories and theological themes Using a theological framework to analyze the game of baseball provides a much more interesting if not deeper experience of the game It is much more than a game from this perspective It is much more than life Baseball becomes a reflection of the deepest meaning of life Both baseball and faith can be described as journeys The journey of faith begins in the wilderness as we pursue the call of God in our lives The journey of baseball comes on two levels one as a player striving to become a major leaguer and two as a fan whose love of baseball may be generational or dream inspired or both We begin with the journeys of faith and baseball in section 1 Section 2 looks at the social and cultural context of faith and baseball Both have experienced and initiated social change Section 3 identifies how baseball and faith deal with rule breakers or sinners Section 4 shows the relationship between baseball and faith in their unusual personalities and goals of perfection Section 5 is a potpourri of theological images that can be found in baseball Finally any theological discussion requires consideration of sacrament Maybe surprisingly there are sacramental images in
