The Great Unbundling J. Y. Sterling, 2025-07-04 For hundreds of thousands of years the story of human success was the story of a unique and powerful package In what this groundbreaking book calls the era of the Bundled Ape our ancestors dominated the planet by combining analytical intelligence emotional connection and physical dexterity within a single vessel the individual human Our societies economies and even our myths were built on the assumption that the person with the idea is also the one who feels the passion directs the hands and experiences the consequences Now that bundle is coming apart In *The Great Unbundling* the author presents a stunning new thesis for understanding our turbulent times The true disruption of artificial intelligence is not that it s a new tool but that it is the engine of a historical process that is systematically isolating each of our core functions improving them beyond human capacity and rendering the original human package obsolete This unbundling is being driven at a breakneck pace by the relentless profit seeking engine of modern capitalism which sees in AI the ultimate instrument for maximizing efficiency The evidence is everywhere The Unbundling of Labor Generative AI is poised to automate or degrade the work of 300 million full
