Generative AI: The Insights You Need from Harvard Business Review Harvard Business Review, Ethan Mollick, David De Cremer, Tsedal Neeley, Prabhakant Sinha, 2024-01-30 The future of AI is here The world is transfixed by the marvel and possible menace of ChatGPT and other generative AI tools It's clear Gen AI will transform the business landscape but when and how much remain to be seen Meanwhile your smartest competitors are already navigating the risks and reaping the rewards of these new technologies They're experimenting with new business models around generating text images and code at astonishing speed They're automating customer interactions in ways never before possible And they're augmenting human creativity in order to innovate faster How can you take advantage of generative AI and avoid having your business disrupted Generative AI The Insights You Need from Harvard Business Review will help you understand the potential of these new technologies pick the right Gen AI projects and reinvent your business for the new age of AI Business is changing Will you adapt or be left behind Get up to speed and deepen your understanding of the topics that are shaping your company's future with the Insights You Need from Harvard Business Review series Featuring HBR's smartest thinking on fast moving issues blockchain cybersecurity AI and more each book provides the foundational introduction and practical case studies your organization needs to compete today and collects the best research interviews and analysis to get it ready for tomorrow You can't afford to ignore how these issues will transform the landscape of business and society The Insights You Need series will help you grasp these critical ideas and prepare you and your company for the future Data Science and Emerging Technologies Yap Bee Wah, Dhiya Al-Jumeily OBE, Michael W. Berry, 2024-04-26 The book presents selected papers from International Conference on Data Science and Emerging Technologies DaSET 2023 held online at UNITAR International University Malaysia during December 4-5 2023 This book presents current research and applications of data science and emerging technologies The topics covered are artificial intelligence big data technology machine and deep learning data mining optimization algorithms blockchain Internet of Things IoT cloud computing computer vision cybersecurity augmented and virtual reality cryptography and statistical learning **Advanced Data Mining and Applications** Masatoshi Yoshikawa, Xiaofeng Meng, Yang Cao, Chuan Xiao, Weitong Chen, Yanda Wang, 2025-11-19 This five volume set constitutes the refereed proceedings of the 21st International Conference on Advanced Data Mining and Applications ADMA 2025 held in Kyoto Japan during October 22-24 2025 **The Treachery of Realities** Sal Restivo, 2025-03-31 This volume targets the contemporary atmosphere of lies post truths and alternative facts Previously we had no reason to think humanity was about to have its dinosaur moment we could be confident of surviving for millennia It now seems that humanity's future might be a matter of decades given the variety of existential threats we face from climate change and asteroids to robots and AI We are not going to save ourselves driven by faith belief hopes prayers and wishes in an atmosphere of science deniers What is required is an investment in a renewed and re energized secular worldview guided

by the sociological imagination and opposed to conventional reasoning and action **AI Enabled Business** Melodena Stephens, Himanshu Vashishtha, Dirk Nicolas Wagner, 2023-07-01 As the use of AI becomes more and more ubiquitous in companies around the world managers charged with taking key decisions require resources to enable them to evaluate new projects effectively The business case for AI projects is not necessarily clear cut and part of the reason for this is the lack of understanding on key decision criteria AI touches on many ethical concepts data privacy validity and more importantly its potential misuse AI is often being used to replace human decision making and there is often no real understanding of the implications of this This book provides a detailed primer for practitioners without a deep technological background It guides the reader through the basic issues and offers advice on how to take decisions There is a dearth of such books currently available and this book aspires to fill a growing niche **ENDORSEMENTS** This book is sure to offer value to business users students and the general public K Ananth Krishnan Tata Consultancy Services I highly recommend this book for the leader seeking an up to date review of AI to make strategic investments Kes Sampanthar Innovation BCG Brighthouse The specificity of application in case studies and easy to understand definitions and recommendations make this a must read in the ever growing field of literature around AI John C Havens The AI Enabled Organization is the perfect tool to embark on a thorough assessment of what AI means for your business Arno Fehler Schmidt Kranz Group Germany *Strategic Innovative Marketing and Tourism* Androniki Kavoura, Victor-Alexandru Briciu, Arabela Briciu, 2025-08-30 This open access book presents the latest findings of researchers from around the globe who presented their work at the 11th International Conference of Strategic Innovative Marketing and Tourism ICSIMAT in 2024 It provides an up to date information and discusses current trends issues and debates both theoretical and practical research on strategic innovative marketing and tourism and applications from social media and emerging technologies in Artificial Intelligence and the Internet of Everything Topics covered in the chapters include social media in marketing and tourism hospitality culture strategic tools and techniques employed and implemented by some of the top research laboratories in the world to the industry This book brings together work from both academia and industry and continues the successful impact of the previous years conference on the academic discussion of the topics **AI for Critical Interculturality** Fred Dervin, 2025-09-30 Provocative interdisciplinary and daringly critical AI for Critical Interculturality doesn't spoon feed ready made answers but rather inspires readers to think question and interrogate interculturality alongside AI In a world where AI is often feared as a threat to human intelligence and creativity the book flips the script by positioning AI as a valuable partner in the study of interculturality as both a scientific and educational notion How could AI help us dismantle biases interrogate knowledge production dissemination and foster deeper self reflexivity in the broad field of Intercultural Communication Education and Research What happens when we treat AI not as a passive tool but as an active interlocutor one that mirrors our ideological blind spots and pushes us toward sharper criticality and reflexivity Through rich theoretical and conceptual insights real

world cases and interactive activities this book equips readers to unmask ideologies in AI generated knowledge about interculturality leverage AI as a mirror to expose and confront personal and systemic biases consider some language stratagems to disrupt linguistic norms in human AI dialogue More importantly the author asks us to forge an ethical and non utilitarian partnership with AI This boundary shattering work invites students educators and researchers of interculturality to envision and co create the future of intercultural studies
