Impact of New Media in Tourism Dinis, Maria Gorete, Bonixe, Luís, Lamy, Sónia, Breda, Zélia, 2021-02-19 Tourism consumers are increasingly demanding and seek to base their travel decision making process on relevant and credible tourism information. In recent years, user-generated content on social media, the opinion of travel bloggers and entertainment programs in the media have influenced the public's travel purchasing behavior and acted as a driving force for the development of tourism products such as film tourism. It also has played a role in the evolution and development of marketing, giving rise to new applications as in the case of digital and influence marketing. On the other hand, tourism organizations and destination management organizations face major challenges in communicating the attributes of a tourism product since this cannot be experienced before consumption. Thus, they need to know how and in which means or platforms of communication they can inform potential consumers. **Impact of New Media in Tourism** provides theoretical and practical contributions in tourism and communication, including current research on the influence of new media and the active role of consumers in tourism. With a focus on decision making and increasing the visibility of products and destinations, the book provides support for tourism agencies and organizations around the world. Covering themes that include digital marketing, social media, and online branding, this book is essential for professionals, academicians, researchers, and students working or studying in the field of tourism and hospitality management, marketing, advertising, and media and communications. **Research Anthology**

on Business Continuity and Navigating Times of Crisis Management Association, Information Resources, 2022-01-07 When the COVID-19 pandemic caused a halt in global society, many business leaders found themselves unprepared for the unprecedented change that swept across industry. Whether the need to shift to remote work or the inability to safely conduct business during a global pandemic, many businesses struggled in the transition to the new normal. In the wake of the pandemic, these struggles have created opportunities to study how businesses navigate these times of crisis. The **Research Anthology on Business Continuity and Navigating Times of Crisis** discusses the strategies, cases, and research surrounding business continuity throughout crises such as pandemics. This book analyzes business operations and the state of the economy during times of crisis and the leadership involved in recovery. Covering topics such as crisis management, entrepreneurship, and business sustainability, this four-volume comprehensive major reference work is a valuable resource for managers, CEOs, business leaders, entrepreneurs, professors, and students of higher education, researchers, and academicians.
