Artificial Intelligence and K-12 Education Joseph Mintz, Wayne Holmes, Leping Liu, Maria Perez-Ortiz, 2024-11-25 This book problematizes and explores appropriate ways of using AI technology that can augment educational practice, especially in K-12 teaching and learning. Since the launch of OpenAI ChatGPT in November 2022, people have been debating to chat or to cheat, while more and more educators have started to explore to add or to integrate it into teaching and learning. A list of questions has been on the way: What can ChatGPT produce? How accurate can the contents produced by the GPT be? What are the considerations that an instructor should have when using AI technology for student learning? To what extent can ChatGPT compete with humans in terms of learning? ChatGPT is just a technology tool, but it drops a huge bomb in the field of education and even changes the way many think about education. The contributors of this book, as well as probing the ethical conundrums presented by generative AI and other new technologies,

in AI ED summarize an overview of practice provided first hand experiences and suggested strategies and methods that are workable in the field This cutting edge volume will be of interest to researchers scholars and practitioners of education education technology sociology ethics and artificial intelligence It was originally published as a special issue of Computers in the Schools
