Military Doctrine A Reference Handbook Praeger Security International:

Military Doctrine Bert Chapman, 2009-09-03 This comprehensive volume provides a thorough overview of 20th and 21st century military doctrines worldwide *Military Doctrine A Reference Handbook* takes a thorough look at 20th and 21st century military doctrines around the world It excerpts relevant English language scholarly and governmental literature to paint a picture of how military doctrine has developed in recent history what military doctrines are currently operating on the world stage and where military doctrine is heading in the near future The book casts a wide net scanning the relevant government documents international agreements monographs journals conference papers and Internet resources to present a thorough overview of the importance of military doctrine in today's highly unstable world Because military institutions are important formulators of national military doctrine and not merely implementers this book examines the roles played by military organizations around the world With the proliferation of independent military scholars and the widespread influence of their work in the Internet age the book also scans the gray literature and describes its effects on military doctrine

Military Doctrine Bert Chapman, 2009-09-03 This comprehensive volume provides a thorough overview of 20th and 21st century military doctrines worldwide *Military Doctrine A Reference Handbook* takes a thorough look at 20th and 21st century military doctrines around the world It excerpts relevant English language scholarly and governmental literature to paint a picture of how military doctrine has developed in recent history what military doctrines are currently operating on the world stage and where military doctrine is heading in the near future The book casts a wide net scanning the relevant government documents international agreements monographs journals conference papers and Internet resources to present a thorough overview of the importance of military doctrine in today's highly unstable world Because military institutions are important formulators of national military doctrine and not merely implementers this book examines the roles played by military organizations around the world With the proliferation of independent military scholars and the widespread influence of their work in the Internet age the book also scans the gray literature and describes its effects on military doctrine

Understanding Military Doctrine Harald Hoiback, 2013-07-18 This book puts military doctrine into a wider perspective drawing on military history philosophy and political science Military doctrines are institutional beliefs about what works in war given the trauma of 9/11 and the ensuing War on Terror serious divergences over what the message of the new military doctrine ought to be were expected around the world However such questions are often drowned in ferocious meta-doctrinal disagreements What is a doctrine after all This book provides a theoretical understanding of such questions Divided into three parts the author investigates the historical roots of military doctrine and explores its growth and expansion until the present day and goes on to analyse the main characteristics of a military doctrine Using a multidisciplinary approach the book concludes that doctrine can be utilized in three key ways as a tool of command as a tool of change and as a tool of education This book will be of much interest to students of military studies civil-military relations strategic studies and war

studies as well as to students in professional military education

The Handbook of African Defence and Armed Forces

Evert Kleynhans, Marco Wyss, 2025-03-01 The Handbook of African Defence and Armed Forces provides the first in depth and multifaceted analysis of the evolution and current state of national defence policies strategies doctrines capabilities security challenges and strategic responses of African states and their armed forces Geographically these aspects are investigated at the national sub regional and regional levels Chronologically they are analysed against the backdrop of the superpower withdrawal from the continent in the 1990s and the so called New Scramble for Africa which has seen a crescendo of renewed great power interest in the continent s resources as well as its strategic role location and relevance since the 2000s The book takes a bottom up and African centric approach and is organized around five key themes i the differing security outlooks and defence policies of African powers within the region and the different sub regions ii the strategies doctrines transformation and employment of African armed forces iii the relationship between African armed forces with sub regional regional and international organizations iv the challenges that African states and their armed forces have been facing and their strategic responses and v the position of African perspectives and agency in the context of continental and international security and defence Understanding African security and defence especially in terms of each individual nation s ability to contribute to peacekeeping operations counterterrorism border security and internal security requires a focus on the national level of armed forces and defence policies this in turns sheds light on sub regional and regional divergences challenges and cooperation Based on this framework the chapters in this volume offer comprehensive African perspectives on African and international security and defence and in doing so show the agency of the continent s countries and armed forces in International Security and Relations

Space Strategy and Military Doctrine

Bert Chapman, 2025-07-24

Examining open access civilian and military space policy strategy and doctrine documents this book highlights emerging trends and developments in military space strategy Bert Chapman collects public documents from Australia Canada the European Union NATO the United States and the United Kingdom from 2017 onward to illustrate space s critical importance to national and international security and to multiple areas of civilian economic and personal use including climate change food security personal and global communications and the potential for expanded space exploration In light of recent revelations that Russia may be capable and desirous of exploding nuclear weapons in space to damage civilian and military space based infrastructures of the U S and other countries and China s increasing space assertiveness and capabilities it is more important than ever that civilian readers have the access and background knowledge necessary to parse publicly available documents relating to space strategy so that they may effectively participate in the legislative and regulatory policymaking processes of their governments

Information Operations

Christopher Paul, 2008

Encyclopedia of Military Science

G. Kurt Piehler, 2013-07-24 The Encyclopedia of Military Science provides a comprehensive ready reference on the organization traditions training purpose and functions of today s military Entries in this four volume work include coverage of

the duties responsibilities and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political social legal economic and technological factors A large component is devoted to issues of leadership group dynamics motivation problem solving and decision making in the military context Finally this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations the First Persian Gulf War the events surrounding 9 11 and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events Click here to read an article on The Daily Beast by Encyclopedia editor G Kurt Piehler Why Don t We Build Statues For Our War Heroes Anymore

Geopolitics Bert Chapman,2011-04-07 This concise introduction to the growth and evolution of geopolitics as a discipline includes biographical information on its leading historical and contemporary practitioners and detailed analysis of its literature An important book on a topic that has been neglected for too long Geopolitics A Guide to the Issues will provide readers with an enhanced understanding of how geography influences personal national and international economics politics and security The work begins with the history of geopolitics from the late 19th century to the present then discusses the intellectual renaissance the discipline is experiencing today due to the prevalence of international security threats involving territorial airborne space based and waterborne possession and acquisition The book emphasizes current and emerging international geopolitical trends examining how the U S and other countries including Australia Brazil China India and Russia are integrating geopolitics into national security planning It profiles international geopolitical scholars and their work and it analyzes emerging academic military and governmental literature including gray literature and social networking technologies such as blogs and Twitter

U.S. Army Doctrine Walter E. Kretchik,2021-06-01 From the American Revolution to the global war on terror U S Army doctrine has evolved to regulate the chaos of armed conflict by providing an intellectual basis for organizing training equipping and operating the military Walter E Kretchik analyzes the service s keystone doctrine over three centuries to reveal that the army s leadership is more forward thinking and adaptive than has been generally believed The first comprehensive history of Army doctrine Kretchik s book fully explores the principles that have shaped the Army s approach to warfare From Regulations For the Order and Discipline of the Troops of the United States in 1779 to modern day field manuals it reflects the fashioning of doctrine to incorporate the lessons of past wars and minimize the uncertainty and dangers of battle Kretchik traces Army doctrine through four distinct eras 1779 1904 when guidelines were compiled by single authors or a board of officers in tactical drill manuals 1905 1944 when the Root Reforms fixed doctrinal responsibility with the General Staff 1944 1962 the era of multiservice doctrine and beginning in 1962 coalition warfare with its emphasis on interagency cooperation He reveals that doctrine has played a significant role in the Army s performance throughout its history although not always to its advantage as it has often failed to anticipate accurately the nature of the next war and still continues to be locked in a debate between advocates of conventional warfare and those

who emphasize counterinsurgency approaches Each chapter presents individuals who helped define and articulate Army doctrine during each period of its history including George Washington and Baron von Steuben in the eighteenth century Emory Upton and Arthur Wagner in the nineteenth and Elihu Root and William DePuy in the twentieth Each identifies the first principles set down in manuals covering such topics as tactics operations and strategy size organization and distribution of forces and the promise and challenges of technological innovation Each also presents specific cases that analyze how effectively the Army actually applied a particular era s doctrine Doctrine remains the basis of instruction in the Army school system ensuring that all officers and enlisted soldiers share a common intellectual framework This book elucidates that framework for the first time *U.S. Military Information Operations in Afghanistan* Arturo Munoz,2012-04-30 The U S Marine Corps which has long recognized the importance of influencing the civilian population in a counterinsurgency environment requested an evaluation of the effectiveness of the psychological operations element of U S military information operations in Afghanistan from 2001 to 2010 based on how well messages and themes were tailored to target audiences This monograph responds to that request **India's Doctrine Puzzle** Ali Ahmed,2014-09-25 The balance of power in South Asia is tenuous Neighbouring states with nuclear arsenal pose a serious threat in times of conflict and the danger of escalation into a nuclear holocaust in South are ever present This book locates the change in India s war doctrine at the turn of the century following the Kargil War in 1999 between India and Pakistan It examines how war policy was shaped by the threat posed by India s neighbours and the need for greater strategic assertion It also reveals that this change was forced by the military s need to adapt itself to the nuclear age Finally it raises questions of whether the Limited War doctrine has made India more secure An astute analysis of not only India s military strategy but also of military doctrine in general this book will be valuable to scholars and researchers of defence and strategic studies international relations peace and conflict studies South Asia studies as well as government and military institutions **Encyclopedia of Public Administration and Public Policy - 5 Volume Set** Domonic A. Bearfield,Evan Berman,Melvin J. Dubnick,2020-08-14 Now in its third edition Encyclopedia of Public Administration and Public Policy remains the definitive source for article length presentations spanning the fields of public administration and public policy It includes entries for Budgeting Bureaucracy Conflict resolution Countries and regions Court administration Gender issues Health care Human resource management Law Local government Methods Organization Performance Policy areas Policy making process Procurement State government Theories This revamped five volume edition is a reconceptualization of the first edition by Jack Rabin It incorporates over 225 new entries and over 100 revisions including a range of contributions and updates from the renowned academic and practitioner leaders of today as well as the next generation of top scholars The entries address topics in clear and coherent language and include references to additional sources for further study **Counter-Insurgency in Nigeria** Akali Omeni,2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko

Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military s internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general **Military Review** ,2010-07 **Strategic Communication**

Christopher Paul,2011-04-07 This volume in the Contemporary Military Strategic and Security Issues series presents a concise introduction to the evolution key concepts discourse and future options for improved strategic communication in today s U S government Strategic Communication Origins Concepts and Current Debates is a groundbreaking study the first book explicitly focused on strategic communication as it is currently used and discussed in the U S government Written specifically for those who are new to strategic communication this incisive book clarifies the definitional debate explores the history of the term and its practice and embraces a broad practical definition But that is only the beginning Moving to the realities of the issue author Christopher Paul reviews dozens of government reports on strategic communication and public diplomacy released since 2000 examining specific proposals related to improving strategic communication in the U S government and explaining the disagreements Most important he offers consensus and clarity for the way ahead discussing how disparate elements of the government can be coordinated to master and win the war of ideas through fully integrated and synchronized communications and actions **Pandemic Planning** J. Eric Dietz,David R. Black,2012-03-14

Preparedness and rigorous planning on community state and regional levels are critical to containing the threat of pandemic illness Steeped in research and recommendations from lessons learned Pandemic Planning describes the processes necessary for the efficient and effective preparation prevention response and recovery from a pandemic threa **Parameters** ,1981

Military Transformation and Modern Warfare Elinor Sloan,2008-02-28 Military transformation can be understood as comprising three overlapping and sometimes competing layers the conventional force dominated revolution in military affairs a more recent irregular warfare emphasis and a wider dimension including homeland defense space and nuclear policy The Western world is currently focusing its attention on transformation s middle layer while China and Russia are focusing on the

RMA and transformation s wider aspects This dynamic indicates the United States and its allies should continue to prepare for the full range of conflicts This book establishes the meaning of military transformation assesses the manner in which certain countries are transforming their military forces discusses the relevancy of transformation efforts to modern conflict and in drawing out the key areas of emphasis on the part of various countries provides a window on the future global security environment It is divided into seven chapters plus a conclusion The first chapter focuses on the meaning of military transformation establishing a framework through which national militaries can be examined This comprises transformation s revolution in military affairs components its newer special operations forces counterinsurgency and stabilization and reconstruction aspects and its wider homeland defense space and deterrence dimensions The book devotes two chapters to the United States and one each to China Russia and NATO It also has a chapter that looks individually at each of Australia Britain Canada France and Germany An assessment of the relevancy of force transformation to modern warfare is integrated into the discussion of what transformation means how the United States is responding and the concluding chapter The book contains a biographical sketch of Andrew Marshall Andrew Krepinevich William Owens Arthur Cebrowski Donald Rumsfeld and Thomas Barnett all of whom have been involved in some aspect of military transformation India's Limited War Doctrine Ali Ahmed,2012 *The Handbook of European Defence Policies and Armed Forces* Hugo Meijer,Marco Wyss,2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe
