The Church of the Free Mind Azazel Rama,2014-04 Welcome to a world of subversive literature filled with magical wisdom and the decoding of the occult In this volume author Azazel Rama explores the ancient secrets of astral travel and reveals a doorway to the multiverse of endless potential He then reveals how the heretical views of science and nature can slay the dragon of religion with common sense This is not a self help seminar filled with happy sunshine nonsense codes and false rainbows this is a journey into the forbidden The Church of the Free Mind has opened its gates and within this Holy Temple no messiah shall be said to exist Written as a diatribe against words this is the true philosophy of a snake swallowing its own tail Behold the self consuming god that exists within the flesh and souls of all living beings Embark upon a spiritual exploration of a higher order of freedom as it relates to an unconsciously connected society of human animals and learn the moral codes of Mother Nature as she echoes a sense of natural law through the depths of our collective being This collection of essays proposes a way to enter a new cycle of human understanding
