Anita started an affair with Lenny in spite of knowing that he was married and that his wife was succumbing to a mysterious disease. Now married to him and carrying his child, how can she compete with Natasha's shadow and with her brilliance in the past? Given Anita's lack of education, how can she resist his compelling wish to transform her? Can she survive his kind of love? Faced with the way he writes her as a character in his book, how can Anita find a voice of her own? And when his estranged son Ben comes back and lives in the same small apartment, can she keep the balance between the two men whose desire for her is marred by guilt and blame?

The White Piano As told by Ben: Coming back to his childhood home after years of absence, Ben is unprepared for the secret which is now revealed to him: his mother, Natasha, who used to be a brilliant pianist, is losing herself to early onset Alzheimer's, which turns the way her mind works into a riddle. His father has remarried and his new wife, Anita, looks remarkably similar to Natasha, only much younger. In this state of being isolated, being apart from love, how will Ben react to these marital affairs when it is so tempting to resort to blame and guilt? In our family, forgiveness is something you pray for, something you yearn to receive, but so seldom do you give it to others. Behind his father's back, Ben and Anita find themselves increasingly drawn to each other. They take turns using an old tape recorder to express their most intimate thoughts, not realizing at first that their voices are being captured by him. These tapes, with his eloquent speech and her slang, reveal the story from two opposite viewpoints. Dealing with the challenging prospects of the marriage of opposites, this book can be read as a standalone novel as well as part of one of family sagas.

best sellers: *Still Life with Memories* is a family saga series tinged with family saga romance, fraught with marital issues and riddled with the difficulty of connecting fathers and sons.

The Social Meaning of Extra Money Sidonie Naulin, Anne Jourdain, 2019-08-29: Why do ordinary people who used to engage in domestic and leisure activities for free now try to make a profit from them? How and why do people commodify their free time? This book explores the marketization of blogging, cooking, craftwork, gardening, knitting, selling second-hand items, sexcamming, and more generally the economic use of free time. It outlines how the development of web platforms, the current economic context, and post-Fordist values can account for this extension of market and labor. Drawing on a range of interviews, ethnographic observations, and quantitative surveys, the contributors question the empowering effects of commodification with a specific focus on how gender and class inequalities affect the social meanings of extra money. Ultimately, the collective findings demonstrate how commodification pervades even the most mundane social activities. This research will be invaluable to scholars and students with a focus on gender and digital sociology, the sociology of work and labour, and the marketization of leisure.
