

Contrast and Compare

Read this note from Jake's dairy.

October 15, 2020.

Sometimes I wonder why Alex and I are friends. He has a great personality (just like me :P), he is fun (like me XD) but sometimes I don't understand him, seriously!

Today, Alex went to school with the ugliest clothes ever! He just doesn't care about how he looks! I really like to look nice, but he could wear anything.

Then, oh mi gosh! His way to eat! Put something, (seriously, anything!) on a plate, and he will eat it. He just eats whatever is in front of him. I always try to eat something healthy; my favorite meal is broccoli pizza! But I don't like milk, I always give it to Alex, he loves it!

But I think those things don't really matter, he always helps me to do the right thing, and makes me laugh when I'm sad. We both like dragons and funny movies, he prayed for me when I was sick... I like having a friend like him... even when he is a little weird :V

Label the differences and similarities between Alex and Jake. Use and "S" for similarities and a "D" for differences.

- They have a great personality and are fun.
- They are fun.
- They want to look nice.
- They don't care about their clothes.
- They try to eat healthy.
- They like milk.
- They wear the first thing they find in the closet.

Answer the following questions correctly.

1. To contrast is...
2. To compare is...
3. The key to compare and contrast correctly...
4. What's the main idea in the text?

psychology providing the tools and techniques for gathering information to inform our understanding of human behavior. However, the continued growth and new developments in the assessment literature requires an ongoing examination of the principles and practices of central importance to psychological assessment. The Oxford Handbook of Child Psychological Assessment covers all areas of child and adolescent assessment. Leaders in the field summarize and synthesize state of the science assessment theories, techniques, and applications. Placing an emphasis on clinical and psychoeducational assessment issues, chapters explore issues related to the foundations, models, special topics, and practice of psychological assessment. Appropriate as a desk reference or a cover-to-cover read, this comprehensive volume surveys fundamental principles of child assessment, including ability, achievement, behavior, and personality, covers the role of theory and measurement in psychological assessment, and presents new methods and data.
