Survey Methodology explores both the increasingly scientific endeavour of surveys and their growing complexity as different data collection modes and information sources are combined. The handbook takes a global approach with a team of international experts looking at local and national specificities as well as problems of cross national comparative survey research. The chapters are organized into seven major sections each of which represents a stage in the survey life cycle: Surveys and Societies, Planning a Survey, Measurement, Sampling, Data Collection, Preparing Data for Use, Assessing and Improving Data Quality. The SAGE Handbook of Survey Methodology is a landmark and essential tool for any scholar within the social sciences.

Handbook of Research on Aestheticization of Violence, Horror, and Power Erdem, M.

Nur, Kocabay-Sener, Nihal, Demir, Tuğba, 2020-10-02. Individuals seek ways to repress the sense of violence within themselves and often resort to medial channels. The hunger of the individual for violence is a trigger for the generation of violent content by media owners, political power owners, owners of religious power etc. However, this content is produced considering the individual's sensitivities. Thus, violence is aestheticized. Aesthetics of violence appear in different fields and in different forms. In order to analyze it, an interdisciplinary perspective is required. The Handbook of Research on Aestheticization of Violence, Horror, and Power brings together two different concepts that seem incompatible: aesthetics and violence, and focuses on the basic motives of aestheticizing and presenting violence in different fields and genres as well as the role of audience reception. Seeking to reveal this togetherness with different methods, research analyses and findings in different fields that include media, urban design, art, and mythology, the book covers the aestheticization of fear, power, and violence in such mediums as public relations, digital games, and performance art. This comprehensive reference is an ideal source for researchers, academicians, and students working in the fields of media, culture, art, politics, architecture, aesthetics, history, cultural anthropology, and more.
