

Pentecost

Pentecost is a Christian celebration. Its purpose is to teach people about living in the presence and power of the Holy Spirit.

The Story of Pentecost

- 1 Pentecost marks the coming of the Holy Spirit. Jesus promised his disciples he would send the Holy Spirit but he didn't tell them when this would be.
- 2 The Holy Spirit descended on the disciples as they gathered in a room in Jerusalem. The men heard the sound of a violent wind and tongues of fire appeared upon their heads.
- 3 Each disciple was filled with the Holy Spirit and was then able to speak in different languages.
- 4 The disciples went out to preach the Word of God to people of different cultures. They also baptised thousands of people, creating their own new Christian church.

Pentecost is celebrated 50 days after Easter Sunday. It is always celebrated on a Sunday.

Pentecost is based on the New Testament story from the Acts of the Apostles.

Some Christians believe they receive the Holy Spirit when they accept Christ and are baptised in churches.

Some Christians believe that the Holy Spirit is always with them, and therefore, that it always talks to them.

Symbols of Pentecost include wind, fire, the colour red, water and a dove.

Holocene Vegetation History in the Territory of Sagalassos (Southwest Turkey) Marleen Vermoere,2004 This study presents a broad picture of the vegetation history in the territory of Sagalassos during the Holocene based on pollen analysis of cores taken from various Quaternary deposits in the area The fossil pollen data are interpreted by using modern reference pollen data obtained from the current vegetation types In addition the pollen sequences are compared with pollen data from various other parts of Southwest Turkey so that they are discussed within a much wider regional pattern of vegetation history This research has allowed the identification of several major vegetation changes which are confronted with archaeological evidence and with the settlement history of the district The first arrival of farmers during the Chalcolithic in the valley below the city is reflected by a massive clearance of oak forest The development of urban sites during the Archaic and Classical period is shown by a second deforestation phase

followed by a major cultivation phase from early Hellenistic to early Byzantine times During this period olive culture was introduced in the area whereas deciduous oak woodlands and extensive needle leaved forests again were major components of the vegetation cover The economic value of these types of vegetation for the city is discussed Instability caused by the plague and political unrest a major earthquake and the first Arab raids in the area seems to have resulted in an economy with a greater emphasis on pastoralism and a neglect of olive yards and forests after the 7th century From the Byzantine period onwards this gradually resulted in a degraded landscape
