The Model of Everything Ralph Brown,2021-01-06 When humanity questions the purpose of existence they often turn to science or religion for answers Unfortunately both science and religion contain inconsistencies These inconsistencies touch the human spirit in the most profound ways resulting in an uneasiness about life Do I really have a purpose Seeking to address the spiritual unease the history of humanity documents the development and pursuit of religion with a concept of a divine creator with a plan for humanity However in more recent history with an increasing emphasis on scientific knowledge the concept of a divine creator is increasingly discounted as inconsistent with the material world revealed by scientific discovery Via the scientific method humanity is turning its focus to the material world creating new gods of science and the purveyors of scientific knowledge But rather than provide definitive answers as science continues to advance the theories of creation point increasingly to inconclusive and inconsistent results These shortcomings of science are often veiled in the expression Someday we will know but many in the scientific community are beginning to question that hope With science and religion each plagued with inconsistency perhaps appropriately integrating them will lead us to the real answers we seek

The Model of Everything A Divine Universe relies on both scientific and biblical knowledge to fully integrate science and religion in a consistent complementary and interdependent fashion This confluence and synergy of knowledge reveal a comprehensive model that accounts for the totality of human existence the physical and spiritual The reader via personal and straightforward experiments participates in developing the model Biblical knowledge is the pointer for a unique application of scientific knowledge Then the incredible and sometimes bizarre world of science reveals how God teaches us about our existence and spirituality The integration of scientific and biblical knowledge results in several new mental constructs providing an account for the totality of creation the material and immaterial and a genuine hope and understanding of personal existence The model presents some eye popping implications and applications as well as predictions on future scientific progress and outcomes Each reader is invited and encouraged to become a scientist a scientist prepared to chart a life changing personal discovery

Apart from Love Uvi Poznansky, 2012-02-15 Apart from Love is not your typical love story All consuming heart wrenching and dark it is an epic that starts when Ben returns to meet his father Lenny and his new wife Anita It is then that he discovers a family secret How will they find a path out of conflicts out of isolation from guilt to forgiveness My Own Voice As told by Anita Ten years ago Anita started an affair with Lenny in spite of knowing that he was married and that his wife was succumbing to a mysterious disease Now married to him and carrying his child how can she compete with Natasha s shadow and with her brilliance in the past Given Anita s lack of education how can she resist his compelling wish to transform her Can she survive his kind of love Faced with the way he writes her as a character in his book how can Anita find a voice of her own And when his estranged son Ben comes back and lives in the same small apartment can she keep the balance between the two men whose desire for her is marred by guilt and blame The White Piano As told by Ben Coming back to his childhood home after years of absence Ben is unprepared for the secret which is now revealed to him his mother Natasha who used to be a brilliant pianist is losing herself to early onset Alzheimer s which

turns the way her mind works into a riddle His father has remarried and his new wife Anita looks remarkably similar to Natasha only much younger In this state of being isolated being apart from love how will Ben react to these marital affairs when it is so tempting to resort to blame and guilt In our family forgiveness is something you pray for something you yearn to receive but so seldom do you give it to others Behind his father's back Ben and Anita find themselves increasingly drawn to each other They take turns using an old tape recorder to express their most intimate thoughts not realizing at first that their voices are being captured by him These tapes with his eloquent speech and her slang reveal the story from two opposite viewpoints Dealing with the challenging prospects of the marriage of opposites this book can be read as a standalone novel as well as part of one of family sagas best sellers Still Life with Memories is a family saga series tinged with family saga romance fraught with marital issues and riddled with the difficulty of connecting fathers and sons **The Music of Us** Uvi Poznansky,2015-10-27 **Twisted** Uvi Poznansky,2013-07-13 Come into a dark strange world where everything is firmly rooted in the familiar except for some quirky detail that twists the yarn and takes it for a spin in an unexpected direction So prepare yourself keep the lights on If you like to read a horror anthology in the strain of Edgar Allan Poe or if you like to witness the battle between the devil and God you will enjoy outwitting the devil in this book As befitting a dark fantasy it is a woman or rather her ghost who finds a way to outwit him **My Own Voice** Uvi Poznansky,2015-08-27 Falling in love with Lenny should have been the end to all her troubles For Anita it's only the beginning when family secrets start unravelling His ex wife Natasha is succumbing to a mysterious disease How can Anita compete with her shadow How can she find a voice of her own And when his estranged son Ben comes back and lives in the same small apartment can she keep the balance between the two men whose desire for her is marred by guilt and blame Dealing with the challenging prospects of the marriage of opposites this book can be read as a standalone novel as well as part of one of family sagas best sellers Still Life with Memories is a family saga series tinged with family saga romance fraught with marital issues and riddled with the difficulty of connecting fathers and sons Strange Narrators in Contemporary Fiction Marco Caracciolo,2016-12 A storyteller's craft can often be judged by how convincingly the narrative captures the identity and personality of its characters In this book the characters who take center stage are strange first person narrators they are fascinating because of how they are at odds with what the reader would wish or expect to hear while remaining reassuringly familiar in voice interactions and conversations Combining literary analysis with research in cognitive and social psychology Marco Caracciolo focuses on readers encounters with the strange narrators of ten contemporary novels including Bret Easton Ellis's American Psycho Haruki Murakami's Hard Boiled Wonderland and the End of the World and Mark Haddon's The Curious Incident of the Dog in the Night Time Caracciolo explores readers responses to narrators who suffer from neurocognitive or developmental disorders who are mentally disturbed due to multiple personality disorder or psychopathy whose consciousness is split between two parallel dimensions or is disembodied who are animals or who lose their sanity A foray

into current work on reception reader response cognitive literary study and narratology Strange Narrators in Contemporary Fiction illustrates why any encounter with a fictional text is a complex negotiation of interlaced feelings thoughts experiences and interpretations
