web design and engineering tools to stimulate corrosion research and development to achieve quantitative life prediction to incorporate state of the art sensing approaches into experimentation and materials architectures and to introduce environmental degradation factors into these

cathodic protection an overview sciencedirect topics - Jan 16 2023

web the designing of cathodic protection systems is rather complex however it is based on simple electrochemical principles described earlier in chapter 2 corrosion current flows between the local action anodes and cathodes due to the existence of a potential difference between the two fig 5 1 as shown in fig 5 2 electrons released in an anodic reaction
