Reader Bot Naomi S. Baron, 2026-01-20 What happens to human reading when AI bots can do it for us Explosive developments in artificial intelligence have awed everyday users with the technology's ability to draw do computer coding and especially to write Those AI generated essays and poems legal briefs and responses to requests for information are all visible evidence of large language models at work What we don't see is the critical prior step before it can write AI needs to read While AI's written outcomes are remarkably similar to what a diligent student lawyer or researcher might produce AI doesn't read the way that humans do Now that AI is proving an adept reader what happens to our own reading skills and motivations especially at a time when both voluntary and school reading are increasingly on the decline We have learned that when we let chatbots write for us there are pros and cons to handing over our virtual pens It's critical that we also think through the consequences of relinquishing reading a deeply human activity to bots What do we stand to gain and lose when we let AI read for us Tracing the intersecting trajectories of AI and reading *Reader Bot* tackles this vital question revealing why we must be thoughtful about how we welcome AI as reader into our lives

The Artificial Author Simone Aliprandi, 2025-10-03 The artificial author explores the theme of intellectual property in the era of generative artificial intelligence and reflects on the new concept of creativity brought by this disruptive technology The book questions the concept of authorship and the possibility that machines might perform much of the creative work traditionally reserved for humans leaving the latter in the mere role of controller of the outputs obtained Through an interesting doctrinal reflection a precise commentary on jurisprudential cases and a detailed survey of the terms of use of the main platforms Simone Aliprandi offers an overview of the main emerging issues regarding copyright management of AI generated works The book is written in an accessible style and is intended not only for legal professionals but for all those interested in the new challenges posed by artificial intelligence in the field of creativity The work is completed by a series of explanatory diagrams and an extensive bibliography

Artificial Intelligence. Benefits, Risks and Effects on Society Oguzhan Bekar, 2019-04-02 Bachelor Thesis from the year 2018 in the subject Computer Science Internet New Technologies language English abstract This thesis provides a framework to think about AI and how it affects and shapes the society Finally this thesis is structured as follows First I will start summarizing the Theoretical and Empirical Approaches by Acemoglu and Restrepo in stating the effects of Automation on wages and employment Afterward I will state Cath et al's review of recent

policymaking decisions regarding AI and how to make a Good AI Society by the U S EU and UK Furthermore after each section I am going to discuss each paper respectively and supplement them with my findings Finally I will state further novel research which could foster implementing a society in which AI does more help than harm and conclude afterward
