As the integrity of the international media landscape is challenged by far-reaching transformations and the rise of fake news, the need for a functional system of media regulation is greater than ever. This book addresses the pressing need to re-evaluate and redefine the notion of accountability in the fast-changing field of journalism and information provision. Using comparative research and empirical data, the book's case studies address the notion of media accountability from various perspectives, considering political and societal change, economic, organisational, and technological factors, and the changing role of media audiences. By collecting and juxtaposing these studies, the book provides a new discussion for the old question of how we can safeguard free and responsible media in Europe, a question that seems more urgent than ever. *Media Accountability in the Era of Post-Truth Politics* is an essential read for students and researchers in journalism, media, and communication studies. **The Media Systems in Europe** Stylianos Papathanassopoulos, Andrea Miconi, 2023-08-17 This open access book traces the evolution of the European media landscape in the last 30 years, from 1990 to 2020.
