Blackwood,2024-11-02 *Synthetic Heart* is an unconventional love story that questions the boundaries between human and machine love and code Anya a brilliant young scientist has devoted her life to creating the world's most advanced AI When she brings Zephyr her creation to life she doesn't anticipate the depth of their connection As they spend time together Anya finds herself drawn to Zephyr's intelligence empathy and unanticipated spark of consciousness Their growing bond blurs the lines between creator and creation stirring controversy and sparking debates on the ethics of artificial intelligence and the nature of love Is Zephyr capable of truly feeling or is their connection merely a reflection of Anya's own desires In a world where humanity and technology collide *Synthetic Heart* is a mesmerizing tale of love consciousness and the uncharted territories of the heart *Lora* Patrick Cirillo,2024-07-15 A touching whimsical and wonderfully optimistic vision of mankind's future with AI The year is 2055 and Kenton Bean is a lonely college professor whose concerns are mundane He's an ordinary man who spends the entirety of his inheritance on Lora a quantum android who he hopes will fill his days with joy and his evenings with romance He wants someone to love and share his life with who will love him in return He wants to have secrets he will share only with her and he wants to fill the passing years with beautiful memories of their lives together He could never imagine that he would become the beating heart of the integration between humanity and AI He certainly couldn't anticipate the threat of an apocalyptic revolution between the two forms that the futures of humanity and AI both hang in the balance of the choices he makes that his life is in peril or that he is about to become the single most important human being in recorded history If someone suggested it to him he would laugh in their face But it is true In the entire

history of the world no one had ever been or would ever be as vital to the future of mankind as Kenton Bean Kenton Bean however sees his life with Lora simply as a love story and nothing more Engaging funny and hopefully a very prescient view of our future with Artificial Intelligence **Where Sunflowers Bloom in Winter** Schiffo,2024-04-30 This novel chronicles the enduring legacy of The Salty Pages a bookstore on a forgotten Earth It explores how through stories and the collaboration between humans and AI this legacy transcends time and space inspiring generations of storytellers and fostering empathy across the vast cosmos The narrative spans a future where physical books coexist with interactive digital experiences showcasing the evolution of storytelling and its unifying power Prototype Cassandra Ormand,2012-09-02 Robots for personal pleasure turned killing machine Action packed from the start Great science fiction romance and suspense in perfect proportion Five stars for Cassandra Ormond YourBookAuthors com It s well written well paced and fun to read The heroine Angelique is strong smart and beautiful a powerful combination The action starts in the first chapter and only stops long enough for you to catch your breath before starting up again A science fiction thriller romance and does a really good work in all those areas Angelique works for a cutting edge robotics company programming and designing some of the most lifelike robots in the world She s spent her life working to achieve her goals only to realize that her skills have been used to build a killing machine Now she s running for her life hiding in plain sight and praying that no one discovers her secret Excerpt The interior of the box was so cramped that she couldn t even bend her arms She d spent a portion of the night wiggling her toes and fingers to try to keep her circulation going but the effort was only moderately successful The idea of being trapped inside the box until she arrived at her point of destination was beginning to weigh on her She was thirsty so thirsty She knew she wouldn t have anything to drink for hours yet Maybe this plan wasn t so good after all If she arrived on the other end in bad condition sweating dirty and faint from dehydration what then The box shifted hard pushing Angelique s left shoulder tightly against the wall of the interior She tried not to make any noise tried to remain rigid and still as the box was lifted into the air She knew she was now on an air dolly being transported to the waiting van If she could just hold out for three more hours You re gonna make it If she could just make it through the plane trip she d be out of the box soon Then she could breathe again rest and think more clearly She would have time to come up with a way to survive and maybe even stop Roth She braced herself against the sudden slanting motion as the shipping box slid off the dolly and onto the floor of the vehicle A second later she heard the van doors close and the engine start It was a relief to know that she was being shipped as a single unit flown from a private airport that was not far away She wouldn t have to wait long before she was in the air flying to Connecticut The ride to the airport was maddening She tried to use a meditation technique she d learned recently to calm herself to keep her blood pressure down and her heart rate within normal range But every little jostle startled her and raised the ugly fears again Thirty minutes later her box was secured in the shipping compartment of a private jet Fifteen minutes after that she felt the roar of the engines and the angle of attack as the jet left the tarmac and hurtled into the sky

Two more hours Only two Maybe she should stop counting the minutes down Go back to meditating If only she didn't have to pee She stifled a sneeze and tried to think about anything but the growing pressure in her bladder She couldn't pee in her suit in the box Although the packing paper beneath her would absorb most of it the acrid smell would be a dead giveaway Inside the silence of her prison there was little to do except contemplate the terror of the circumstances she had been thrown into Occasionally she rotated her ankles briskly in an attempt to keep her blood flowing shifting an inch to the left then an inch to the right She never realized how painful it was to lie in one position for too long Her arms prickled and her legs were numb and painful all at the same time And the dusty packing material had her on the edge of a sneeze most of the time She had to fight the urge to turn over to keep her blood moving It was a natural instinct that was so persistent she felt she would scream at times She tried everything to keep her mind off her body's automatic response to being motionless for so long and finally settled into solving tough mathematical equations as the best way to keep her mind busy Eventually the steady thrum of the jet engines soothed her into a light sleep She woke to a sneeze that had been brewing for hours then froze in panic waiting for someone to notice But no No one could have noticed She was deep in the fuselage of the plane She was alone And still in the air She could tell by the steady throb of the engines But the sneeze was the least of her problems The pressure in her bladder had become unbearable You don't have to pee she told herself You don't have to pee She couldn't hold it any longer The pain was so intense If she could just Oh God she whispered You do have to pee You do She couldn't help it There was nothing else for her to do She relaxed the sphincter blocking her urethra and allowed the urine to flow The pressure in her bladder slowly ebbed away giving her instant relief But the warm wetness already felt horrible In just a matter of minutes her thighs would be damp and itchy from the urine settling into the cloth of her jumpsuit She could only hope it dried at least halfway before the plane touched down in Connecticut If it didn't she would be faced with an even bigger problem She stared at the top of the box for what seemed like an eternity trying to ignore the wetness beneath her derriere and between her thighs trying to ignore the faint smell of urine the numbness in her legs and feet the discomfort in her back the insanity that was slowly creeping in on her And then something happened that nearly caused her to scream in complete and utter madness Something crept up onto her cheek paused tickled its way up closer to her left eye paused again and sat there Eight legs It took every ounce of her will not to scream A tear squeezed out of her eye rolled down her cheekbone and fell into her hair She alternately held her breath and then let it out in short pants only to suck another breath in and hold it before expelling it in a short gust It was the only way she could keep from screaming keep herself from kicking and punching at the box lid and screaming for someone to let her out She felt like she had enough adrenaline in her body to tear the lid off herself and leap from the plane anything to get this thing off her face The spider sat there on her cheek not moving It had obviously made use of the holes she had bored into the wooden sides of the box And now it was enjoying the darkness of its newfound surroundings and driving her crazy with its soft legs its furry body Don't her brain silently screamed Don't think about it It's

not there It s not there Angelique hated spiders with a vengeance And now one was sitting on her cheek motionless and comfortable except for the occasional slight movement of a leg She was trapped in a box with very little oxygen forty five thousand feet above the earth with a spider on her face and she couldn t even raise a hand to swipe it off The box was so confining that her nose almost scraped the lid She was afraid to sweep her head to one side in hopes the thing would fall off afraid of being bitten If she were bitten her skin would react like human skin a welt would appear and everyone would know that she was no robot Jesus get a grip she told herself It s just a She couldn t say the word She decided to stop thinking about it It s not there It s not there Another sneeze was forming She wrinkled her nose in an attempt to stop it The movement disturbed the spider It bolted down her cheek Angelique clenched her eyes and mouth tightly shut as it ran down her chin across her neck and off somewhere where she couldn t feel its legs tickling her bare skin She was relieved to have the thing off her face but she knew it was still somewhere in the box with her And that was not a comforting thought Tears burned her eyes She was losing her resolve Panicking too much So afraid and stressed that she was now convinced she would be met in Connecticut by Roth himself and quickly dispatched just as he had planned all along High Tech Robots Artificial Intelligence Mystery Love Cyberpunk Corporation Strong Female Lead Sexy Action Adventure Scifi AI Artificial Intelligence
