Moon News Craig Blais, 2021-03-05 Finalist 2022 Housatonic Book Awards Craig Blais's Moon News a finalist for the 2021 Miller Williams Poetry Prize deploys the sonnet form to treat subjects

as diverse as Gregor Samsa, Bob SquarePants and the cosmos. Here the form's capaciousness is engaged to full effect. Blais, who turned to the sonnet as a method for focusing on the present in the early days of his recovery from alcoholism, confronts personal demons, loss and the possibility for healing. These aren't your grandmother's sonnets though you might find her pea soup recipe or sex tape in this remarkable second collection. **Taking Action on Internet Gambling** Russell K. Mayer, 2014-03-06 This book uses the case of the rise and fall of the Internet gambling industry to illustrate a new approach to understanding how public policy is made in the United States. The theory advanced is that different phases of the policy process are governed by three distinct political dynamics: constraint, momentum and discretion. The book maps this CMD model of the policy process onto the case of Internet gambling, examining the full range of political venues in which issues of public policy are acted upon. It argues that constraint rules the day in the early phases of the policy process, momentum builds in the middle and discretion comes into play most prominently as the policy cycle concludes. This CMD model both draws attention to previously understudied elements of policymaking and explores the dynamic and interrelated nature of these three phases of the policy process. **You Took the Last Bus Home** Brian Bilston, 2025-08-21 You Took the Last Bus Home is a collection of ingenious, hilarious and touching poems from Brian Bilston, one of Britain's funniest and best loved poets. Exploring themes as diverse as love, death and the unbearable torment of forgetting to take out the trash, all of Bilston's poems are alive to the improbable nuances of the English language. Constantly experimenting with poetic forms from Venn diagrams to Scrabble tiles, this irresistibly charming collection of poems will make you ponder the very essence of the human condition in the twenty-first century. **The Urban Uncanny** Lucy Huskinson, 2016-04-28 The Urban Uncanny explores through ten engaging essays the slippage or mismatch between our expectations of the city as the organised and familiar environments in which citizens live, work and go about their lives and the often surprising and unsettling experiences it evokes. The city is uncanny when it reveals itself in new and unexpected light when its streets, buildings and people suddenly appear strange, out of place and not quite right. Bringing together a variety of approaches including psychoanalysis, historical and contemporary case study of cities, urban geography, film and literary critique, the essays explore some of the unsettling mismatches between city and citizen in order to make sense of each and to gauge the wellbeing of city life more generally. Essays examine a number of cities including Edmonton, London, Paris, Oxford, Las Vegas, Berlin and New York and address a range of issues including those of memory, death, anxiety, alienation and identity. Delving into the complex repercussions of contemporary mass urban development, The Urban Uncanny opens up the pathological side of cities, both real and imaginary. This interdisciplinary collection provides unparalleled insights into the urban uncanny that will be of interest to academics and students of urban studies, urban geography, psychoanalysis, cultural studies, social studies and film studies and to anyone interested in the darker side of city life. **Amazon** Natalie Berg, Miya Knights, 2019-01-03

What is the secret to Amazon's success? What does the ecommerce giant have in store for the future? Explore the disruptive new retail strategies of the world's most relentless retailer and gain valuable lessons that can be applied to any business in the ecommerce sector with original insight from the company as it continues to revolutionize itself even further. The retail industry is facing unprecedented challenges. Across all sectors and markets, retailers are shifting their business models and customer engagement strategies to ensure they survive. The rise of online shopping and its primary player, Amazon, is at the heart of these changes and opportunities. Amazon's relentless dissatisfaction with the status quo is what makes it such an extraordinary retailer. This book explores whether Amazon has what it takes to become a credible grocery retailer and as it transitions to bricks and mortar retailing, investigates whether Amazon's stores can be as compelling as its online offering. Exploring the ecommerce giant's strategies, Amazon offers unique insight into how innovations such as voice technology, checkout-free stores, and its Prime ecosystem will fundamentally change the way consumers shop. Written by industry-leading retail analysts who have spent decades providing research-based analysis and opinion on retail strategy and enterprise technology use in retail, Amazon analyzes the impact these initiatives will have on the wider retail sector and the lessons that can be learned from its unprecedented rise to dominance as stores of the future become less about transactions and more about experiences. *Billboard*, 2005-09-10

Trade winds Christiaan De Beukelaer, 2023-01-24 In 2020, Christiaan De Beukelaer spent 150 days covering 14,000 nautical miles aboard the schooner *Avontuur*, a hundred-year-old sailing vessel that transports cargo across the Atlantic Ocean. Embarking in Santa Cruz de Tenerife, he wanted to understand the realities of a little-known alternative to the shipping industry on which our global economy relies and which contributes more carbon emissions than aviation. What started as a three-week stint of fieldwork aboard the ship turned into a five-month journey as the COVID-19 pandemic forced all borders shut while crossing the ocean, preventing the crew from stepping ashore for months on end. *Trade winds* engagingly recounts De Beukelaer's life-changing personal odyssey and the complex journey the shipping industry is on to cut its carbon emissions. The *Avontuur*'s mission remains crucial as ever: the shipping industry urgently needs to stop using fossil fuels starting today. If we can't swiftly decarbonise shipping, we can't solve the climate crisis. *Managing Brand Transgressions* Shailendra Pratap Jain, Shalini Sarin Jain, 2024-07-22 Boeing Max 737's twin crashes, Volkswagen's Dieselgate scandal, worms in Cadbury's chocolates, cyanide in Tylenol, the MeToo movement. In the past 24-48 hours, chances are you have read about a brand believed to have transgressed in some part of the world. These and other transgressions, real or perceived, plague company brands and as in the case of the MeToo movement, human brands routinely and globally. And they often come with serious consequences: consumer injury, billions of dollars in recovery and restitution, legal nightmares.

bankruptcy and damage to the brand Despite their universal prevalence negative outcomes and the justified media frenzy around their occurrence in depth thorough and critical reflections on brand transgressions are scarce Consequently barring the lens of some quick fix solution managers lack a precise understanding of how to handle such potentially explosive situations Managing Brand Transgressions 8 Principles to Transform Your Brand presents over 25 case studies of brands like Boeing Cadbury Dolce Gabbana Fox News Maggi Starbucks Stolichnaya Vodka and Tylenol in countries such as USA China India UK Germany Italy Japan and Latvia Through these real life stories the book captures a snapshot of approximately 50 years of company responses to crises some successful some not caused by brand transgressions Most importantly it provides managers with a roadmap of eight principles that companies must use to turn transgressions into opportunities and transform their brands from inside out Thoroughly researched gripping and provocative this book can guide a brand not only through its crisis but prevent it from becoming a dinosaur
