Business and Office Education Judith J. Lambrecht, 1981 Best Practices in Literacy Instruction, Fourth Edition Lesley Mandel Morrow, Linda B. Gambrell, 2011-06-16 A highly regarded teacher resource and widely adopted text this book is grounded in current knowledge about literacy teaching and learning in grades PreK-8. The field's leading authorities present accessible recommendations for best practices that can be tailored to fit specific classroom circumstances and student populations. Provided are strategies for helping all students succeed including struggling readers and English language learners and for teaching each of the major components of literacy. The book also addresses ways to organize instruction and innovative uses of technology. Chapters include concrete examples, Engagement Activities, and resources for further learning. New to This Edition: Incorporates the latest research findings and instructional practices. Chapters on motivation, content area teaching, new literacies, and family literacy. Addresses timely topics such as response to intervention, the new common core standards, English language learning, and policy issues. Reading Randomised Controlled Trials Robert Savage, Amy Fox, Aneka Dawson, Helen Gray, Clare Huxley, 2025-03-03 In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children. This study aimed to provide valuable insights into the success of largely school based education trials. The Flexible Phonics trial proved to be not only an important experiment in improving children's literacy but a case study in which the methodology of single randomised controlled trials in education can be considered. Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity. The book emphasises the human operations, decision making and actions that drive such trials which are often overlooked in published reports. Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials. The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid-19 pandemic. Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education.
