Financial Aid Best Customer Service:

Creating a Service Culture in Higher Education Administration Mario C. Martinez, Brandy Smith, Katie Humphreys, 2023-07-03 Service delivery is part and parcel of every higher education professional's job both to improve service to students and to each other as internal customers. Until now higher education professionals have had to rely for their professional development on books and training designed for the business sector. This book is the first to specifically address the needs of higher education professionals across a wide range of administrative functions within college and university environments. It is designed for administrative staff and management ranging from professionals working in centralized functions such as student affairs and enrollment management to those working as advisors or in career centers whether in community colleges, four-year institutions or for-profit institutions. Each chapter applies customer service principles to scenarios that are relevant to higher education. The book begins by engaging the reader to define service and identify the external and internal customers who are recipients of that service. It then maps customer interactions into a series of steps and offers departments and individuals a tool to maximize the customer experience. Additional chapters address customer expectations, creating a service culture on your campus, and managerial influences on staff service delivery. **Creating a Service Culture in Higher Education Administration** is a complementary book to the online customer service and management training resources at softskillspros.com

Financial Stability in America 4th Ed. (2023-2024) Misook Yu, CFP® ,2023-12-19 Most Americans are in great financial pain They may appear to be fine because they don't express their suffering but the overwhelming majority three out of four are living paycheck to paycheck with less than 1 000 for emergency savings Many parents are still making payments for their own student loans while scraping every dime to send their children to college at the same time People even with health insurance often hesitate to see a doctor because they fear what they may have to pay under deductible and coinsurance Seniors are frequently skipping a meal because they can't afford it How could that be Among many reasons expenses for college education and medical costs have been increasing at a faster rate than inflation while wages have been stagnating in the past decades And with decreasing pension plans people have to prepare for their retirement now for which they have no training Financial professionals have been chasing the wealthy for so long leaving the ordinary people who could've significantly benefited from their service mostly underserved Many politicians seem to favor policies that are beneficial for their mega donors while lip servicing wage workers to get their votes Working hard and being frugal is no longer enough for most people to be financially stable as it had been for the previous generations What choice do you an ordinary person have to survive in this reality Save as if your life depends on it and vote for politicians and policies that support your financial interests Learn tax advantaged features and utilize asset protection rules that have been enjoyed by the wealthy for so long and use them to save grow and protect your money You have more power than you may think to improve your finances and I hope this book will help awaken that power within you
