Goodreads Choice Irs Refund Status In The Us:

The Trumping of America Pamela Hines, 2018-08 Trump alone is not to blame How does it reflect on North American societal values when wealth trumps humanity selfish individualism trumps compassion the need to be entertained and to win trumps the truth and racism and misogyny are rewarded with the most powerful position in the world The political rise of Donald Trump from the cutthroat Republican primary process to his move to the White House has ushered in a new age of politics in the United States This is a comprehensive analysis of the events surrounding the 2016 presidential election and the unprecedented first year of Donald Trump s presidency Pamela Hines highlights the growing distortion of American democracy which threatens political systems around the world As a Canadian living just across the border Hines provides a unique perspective on the international impact of the election explores the roles of religion racism nationalism and gender bias and critiques the media and its reckless coverage of Trump s ascension The Trump presidency is a wake up call to citizens of the free world Democracy is at risk yet power remains in the hands of the people This assault on democracy can be curtailed only if voters make informed decisions and understand the consequences of their choices while they still have the right to choose

FIGHTING FOR DEMOCRACY Thomas E. Brymer, 2022-10-15 Our democracy is now under attack from within and without as it has never been since the Civil War Yet the evidence is clear that Americans are as a whole civically illiterate and woefully unprepared for the assault our democracy is undergoing For Americans to be prepared to function effectively as constructive citizens in their democracy in the 21st century and beyond they must be equipped with knowledge and a skill set that is not effectively taught today Fighting for Democracy is a call to deconstruct our civics education in this country and reconstruct it to meet the complex needs and pressures our democracy faces today Certainly the civics of tomorrow must include continuing what we teach today about the structure organization and how at least in theory our government is supposed to function But there is far far more that must be taught to deal with the siege our democracy is now under Fighting for Democracy provides a roadmap for improving our civic education so we can withstand this anti democratic movement now underway here We must teach Americans about servant leadership and how to recognize counterfeit leaders who wish to lead us with leadership styles that are toxic and antithetical to democracy including autocracy fascism kleptocracy and populism We must return to a national consensus as to the importance in a democracy of a free news media that is an arbiter of truth and not simply a funnel for one sided biased opinions and editorials masquerading as factual news Americans must relearn how to think critically recognize major change in the public square as well as readily identify when we are not being told the truth are being gaslighted and worse becoming willing to accept conspiracy theories and radicalization of our political parties as being normative We must gain a clearer understanding of the multi dimensional concept of freedom democratic norms and values our history as well as to once again value public service We must reconnect with a love for the idea of democracy itself which includes a keen appreciation for the glue that holds it together the common

good At the same time we must rediscover why our Founders believed democracy while sometimes messy was ultimately the one form of government that could truly serve We the People and provide Americans with the best means possible for pursuing as a nation our hopes dreams our freedom and the pursuit of happiness All these concepts ideas truths and more are a must for Americans to know in order to be able to fight and for us to keep our democracy in today s increasingly anti democratic world That is the purpose of Fighting for Democracy Make no mistake about our democracy We the People must learn now and quickly how to improve our civically literacy including how to become better informed and more constructively engaged citizens If we do not we will not be able to effectively fight to keep our democracy and risk losing everything we have fought for since our nation s birth And American democracy is indeed worth fighting for not just for us today but most importantly for our children grandchildren and all future generations of Americans Fighting for Democracy was written to equip us to do exactly that
