Blindsight Matt Johnson, Prince Ghuman, 2020-05-19 Ever notice that all watch ads show 10 10 as the time Or that all fast food restaurants use red or yellow in their logos Or that certain stores are always having a sale You may not be aware of these details yet they've been influencing you all along Every time you purchase swipe or click marketers are able to more accurately predict your behavior These days brands know more about you than you know about yourself Blindsight is here to change that With eye opening science engaging stories and fascinating real world examples neuroscientist Matt Johnson and marketer Prince Ghuman dive deep into the surprising relationship between brains and brands In Blindsight they showcase how marketing taps every aspect of our mental lives covering the neuroscience of pain and pleasure emotion and logic fear and safety attention and addiction and much more We like to think of ourselves as independent actors in control of our decisions but the truth is far more complicated Blindsight will give you the ability to see the unseeable when it comes to marketing so that you can consume on your own terms On the surface you will learn how the brain works and how brands design for it But peel back a layer and you'll find a sharper image of your psychology reflected in your consumer behavior This book will change the way you view not just branding but yourself too
