Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out

Germany's weaknesses in digital infrastructures and cybersecurity. Additionally, many German companies face a shortage of workers due to digital transformation. Another reason that causes workforce shortage is demographical change. Companies cannot operate their business correctly, increase revenue, or drive innovations to survive in a competitive market without suitable candidates. Furthermore, the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences. Therefore, companies must know them and their work preferences to fill the workforce shortage gap. Remote working as a sub trend of the mega trend New Work has become the new standard for workers, especially since the pandemic. However, there aren't any specific regulations regarding remote work in Germany yet. In general, remote work provides workers, e.g., more freedom and a better work-life balance. Nevertheless, remote work also has the downside, such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers, less productivity outside of the office, etc. For companies, offering remote work gives them complete access to the talent pools, including freelancers as external workers, reducing costs due to fewer offices being more attractive to job seekers. But on the other side, remote leadership has become a big challenge for leaders. Furthermore, companies have to deal more with cybersecurity. When everything's going remotely, companies have become an easier target of cyber attacks.

Remote Work Technology Henry Kurkowski, 2021-09-08. Your small business survival guide for the remote work environment. In Remote Work Technology: Keeping Your Small Business Thriving From Anywhere, experienced SaaS and telecommunications entrepreneur Henry Kurkowski delivers a step-by-step walkthrough for using SaaS technology and communication apps to power your small business from anywhere on the planet. You'll learn how to capitalize on the ability to hire a geographically distributed workforce and excel at serving clients at a distance. You'll also discover why and how you need to alter your approach to management and spot the common pitfalls that litter the way to a truly distributed business. This important book includes valuable case studies of businesses that embraced the reality of remote working during and after the COVID-19 pandemic and cautionary tales of unexpected challenges that arose during the transition. Discussions of how to incorporate remote workers into efficient workflows to increase your business productivity. Explorations of how to support your employees when you can't just pop into their office. Perfect for small business founders, owners, and managers. Remote Work Technology is also a must-read guide for independent contractors who work directly with small businesses and entrepreneurs.
