Jan Ahlgren, 2025-10-30 The world still exists here, but most of its inhabitants are gone. Millions of years ago a disastrous event occurred elsewhere in the Milky Way, and now it pushes Earth's population towards extinction. In the scenic peninsula of Sjövik in Sweden, one family has fortunately escaped death and illness. They are protected from the collapsing world and are battling against time, disease, and those who seek to take what they possess. The Kaminski family are a typical Swedish family. One is an officer, one a professor, a journalist, a homemaker, and a hundred neighbours and friends who all stand with them to defend their lives and livelihoods. Children are born, people pass away, and occasionally the future appears promising. However, time and nature rarely show mercy. Sixteen years after the apocalypse, a sudden chance presents itself, and they take it, though the new excitement tests their courage, strength, loyalty, and resilience. As they prepare to leave their home for another part of the world, they realise they may have hoped too much, yet they confront every challenge and the weather with quiet determination and continue forward regardless. But is their sacrifice justified? Part 1 of The Crystal Trilogy

The Name Seeker Patrick Mayer, 2025-01-05 When thirteen-year-old Marcus Chen discovers a mysterious book in his grandmother's basement, he uncovers a truth that will change humanity forever: names aren't just labels; they're living patterns that shape reality itself. As Marcus delves deeper into the science of Name Mechanics, he joins forces with Jennifer Zhang, a brilliant young coder who sees patterns in the digital realm, and other gifted teens who each perceive different aspects of this hidden world. Together, they discover that names create measurable effects in reality, influencing everything from personal destiny to the fabric of the universe itself. But they're not the only ones who know about this power. Corporate interests, led by the enigmatic Quantum Dynamics, seek to control and monetize name mechanics for profit. As Marcus and his friends race to understand their growing abilities, they find themselves at the center of a conflict that will determine humanity's future: will name mechanics become another resource to be exploited, or will it lead to an unprecedented evolution in human consciousness? From decoding the quantum patterns within names to communicating with cosmic civilizations, from healing environmental damage to transforming global economics, Name Mechanics takes readers on an extraordinary journey that bridges science and mysticism, technology and consciousness, individual destiny and universal purpose. This

groundbreaking novel explores what happens when humanity discovers the true power of names and how this discovery transforms not just our world but our understanding of reality itself It s a story about awakening to the patterns that connect everything and how this awakening might be the next step in human evolution Perfect for readers who love thought provoking science fiction that explores big ideas through personal discovery Name Mechanics offers a unique blend of quantum physics consciousness exploration and the age old mystery of names all woven into an unforgettable coming of age adventure that questions the very nature of reality and human potential Nightmare In Hell's Place Connor
