BODYBUILDING AND FITNESS EXPERIENCE THAT IS ESPECIALLY DESIGNED FOR YOU *The Complete Ketogenic Diet for Beginners* John R. Kite, 2018-09-17 Some of the combinations of things we eat affect our health significantly Ketogenic diet has proved to be significant not only for epileptic patients but also has been known to be an effective weight loss method It stimulates the brain and helps to reduce seizures It is also high in fat content which contradicts with the common belief that fats are bad for the human body In this diet ketones are produced to help the body use fats rather than using glucose to gain energy In this diet ketones are produced which help the body to use fats rather than using glucose to gain energy Keto diet is not for everyone however it can be tried It can be hard to maintain and not everyone's body may be able to cope up with the changes Try to keep the diet simple and straightforward Install a tracker on your phone to keep a check on the number of carb consumption Generally 70% fat is in this diet whilst only 5% carb intake is there Don't forget to hydrate as this is a key to stabilize the body Supplement the diet with a multi vitamin this will be helpful in the long run as well Add milk nuts and porridge to breakfast Adding exercise to this diet will significantly help in the weight reduction Buying an instant pot and using slow cooker recipes can significantly help with the diet plan Some side effects of this diet can be cramps constipation increased heart beat level and reduced physical performance In such cases it is best to seek medical advice and see if any changes can be made to the diet
