intersection of AI social entrepreneurship and economic development *Sustainable Development through Machine Learning, AI and IoT* Pawan Whig, Nuno Silva, Ahmad A. Elngar, Nagender Aneja, Pavika Sharma, 2024-09-24 This book constitutes the refereed proceedings of the Second International Conference on Sustainable Development through Machine Learning AI and IoT ICSD 2024 held in Virtual Event during April 27 28 2024 The 38 full papers presented here were carefully reviewed and selected from 167 submissions These papers have been categorized into the following sections This volume encompassing a diverse array of topics at the intersection of cutting edge technologies and practical applications Each chapter delves into innovative approaches and solutions providing valuable insights into contemporary challenges and opportunities in various domains Here we explore the realms of blockchain data science machine learning artificial intelligence and more offering in depth analyses and practical implementations *Ask, Connect, Thrive* Jaya sai Paleti, 2025-07-19 Unlock Your Career's True Potential Feeling stuck uncertain or hesitant to ask for help In today's fast paced world success isn't achieved alone it's built on mentorship authentic connections and the courage to grow Inspired by real life struggles and triumphs Ask Connect Thrive introduces the groundbreaking ACT Framework a powerful guide to transforming hesitation into action doubt into confidence and isolation into meaningful relationships Inside this book you'll discover Stories that inspire real professionals who overcame challenges and unlocked their potential through mentorship Strategies that empower actionable tools to seek guidance build genuine networks and thrive in your career Insights that resonate timeless wisdom fused with modern career practices to drive personal and professional growth Whether you're navigating career transitions questioning your next step or searching for a breakthrough this book offers the clarity and tools to embrace support foster connections and thrive Success begins with one bold step Ask Connect Thrive Your next breakthrough isn't about working harder it's about connecting smarter Are you ready to thrive *The 21st Century Brain* Richard Restak, 2025-11-18 Discover the Influences of Social Media Artificial Intelligence AI Climate Change Stress and More on Our Brains and Behavior Unique to the Twenty first Century During the past twenty five years we've encountered powerful influences for good and bad on brain function and even brain structure Consider the changes that have already taken place in how we communicate During the last half of the twentieth century images displaced words as the common parlance of communication On the nightly news we've become accustomed to watching images drawn from video cameras used by law enforcement and thanks to a proliferating number of cellphones everyday use Yet AI is turning the traditional dynamic that images carry more weight than words seeing is believing upside down because we now have to question the authenticity of images We are finding ourselves forced to adjust to a world where what we see is not always what's really happening Next consider the effects of our changing environment on our brains and our behavior There is good reason to believe that a link exists between an increase in global temperature and suicide Wildfires becoming more and more common thanks to climate change affect air quality which is often undetectable by the average person until it reaches toxic levels

Studies have proven that wildfire smoke is affecting our brains and potentially causing disease Perhaps the greatest twenty first century contributor to changes in brain function is stress Due to many factors explored in the book it s likely that levels of mental and emotional instability are on the horizon that can only be fully understood by focusing on the changes in the human brain brought about by these unparalleled levels of stress The brain is always evolving The 21st Century Brain will describe those influences on brain and behavior that are unique to this century as well as available preventive measures to mitigate some of these factors This book is a quintessential study on how our brains are uniquely changing in the twenty first century as well as a guide to the personal and collective measures that can be taken to eliminate these factors or reduce their impact
