Extreme Music Michael Tau,2022-08-30 Expand your aural and sensory experiences with Extreme Music An exploration of tomorrow s sounds and silences today Michael Tau had spent years obsessed by the extremes of musical expression Extreme Music Silence to Noise and Everything In Between is the culmination of decades of research into the sounds and silences that comprise the outer limits and conceptual expressions that stretch the definition of music Tau defines and categorizes these recorded sounds into sections that allow fans and newcomers to explore the fascinating world of musicians who defy convention He explores a wide range of extremes including volume speed and vulgarity to packaging recording methods unplayable media outdated technologies and digital pioneers He asks and answers the questions Are all sounds music Is silence music Is a plate of rotting food once cataloged packaged and sold by a distributor qualify as music Extreme Music includes over 100 interviews with makers and musicians as Tau uses his background in psychiatry to help readers understand what motivates people to create and listen to non mainstream music As a fan of multiple avant garde musical genres Tau uncovers the pleasures and sometimes pain and frustration found at the outr fringes of music Extreme Music is the ideal guide for curious seekers die hard fans and cultural

investigators Features images and curated links to samples of music

Trumping the Media Michael Mario

Albrecht, 2022-08-11 The ascendancy of Donald J Trump to the office of president was not a fluke Changes in the media environment and changes in the political landscape converged and provided fertile ground for a demagogic populist to exploit existing structures for his personal and political gains A right wing ecosystem had developed that included cable television talk radio social media and imageboards The political rise of Trump occurred alongside a mainstreaming of far right politics and a skepticism towards long established institutions Trump was able to exploit the shifts in politics and the media environment for his political gain He deployed a post truth strategy that challenged established media and political institutions and their claims to be arbiters of truth and protectors of democracy This book explores the shifts in the media environment that made the political career of Donald Trump possible The author shows the ways that Trump was able to inhabit the new media and political landscape and take advantage of journalistic norms and practices that were susceptible to exploitation by a demagogue with no allegiance to the truth and no reverence towards the foundations of liberal democracy Understanding the ways in which Trump was able to emerge as a powerful political force is essential to those invested in challenging the momentum of the alt right and forwarding the project of democracy

Feminist Connections

Katherine Fredlund, Kerri Hauman, Jessica Ouellette, 2020-09-29 Highlights feminist rhetorical practices that disrupt and surpass boundaries of time and space In 1917 Alice Paul and other suffragists famously picketed in front of the White House while holding banners with short pithy sayings such as Mr President How long must women wait for Liberty Their juxtaposition of this short phrase with the image of the White House a symbol of liberty and justice relies on the same rhetorical tactics as memes a genre contemporary feminists use frequently to make arguments about reproductive rights Black Lives Matter sex positivity and more Many such connections between feminists of different spaces places and eras have yet to be considered let alone understood Feminist Connections Rhetoric and Activism across Time Space and Place reconsiders feminist rhetorical strategies as linked intergenerational and surprisingly consistent despite the emergence of new forms of media and intersectional considerations Contributors to this volume highlight continuities in feminist rhetorical practices that are often invisible to scholars obscured by time new media and wildly different cultural political and social contexts Thus this collection takes a nonchronological approach to the study of feminist rhetoric grouping chapters by rhetorical practice rather than time content or choice of media By connecting historical contemporary and future trajectories this collection develops three feminist rhetorical frameworks revisionary rhetorics circulatory rhetorics and response rhetorics A theorization of these frameworks explains how feminist rhetorical practices past and present rely on similar but diverse methods to create change and fight oppression Identifying these strategies not only helps us rethink feminist rhetoric from an academic perspective but also allows us to enact feminist activist rhetorics beyond the academy during a time in which feminist scholarship cannot afford to remain behind its hallowed yet insular walls

Digital Geographies—Theory,

Space, and Communities Abdul Shaban, 2025-01-02 This machine generated volume with chapter introductions by the human expert showcases how digital technologies are having deep transformative impacts on geographies and temporalities of social political economic and personal lives They are altering perceptions and physicality of space and time They are giving birth to digital communities and societies where distance remains of little significance Virtual spaces and ICT have disrupted state sovereignties often liquidating their physical national boundaries The rise of the digital economy shows that new important raw materials for the future are information rather than coal oil and minerals Digitalisation is also leading to several contradictory processes of democratisation rising welfare of the citizens as well as surveillance peripheralisation and exclusion States are taking pride in digitalising their services to the citizens with massive consequences on the welfare of those facing digital divides As a departure to and in addition to the usual understanding of digitalisation society and space the present volume engages with some of the critical questions while reviewing existing literature What are the space relations of digital technologies What are the forms and consequences of changing physical space human relations to digital space human relations How is the sense of time and space changing with pervasive performatives of in real time and virtual realities or with perceptible or portable spaces In what ways does digitalisation relate to knowledge and power Why and how must we theorise the digitalisation led transformative processes of sociality materiality and their spatialities The book will be useful for teachers researchers and students engaged in this new area of digital geography especially in social science and its subfields of sociology economics political sciences anthropology psychology development studies policy studies social work urban studies and planning For the full picture the volume can be read in combination with its companion volume on Digital Geographies Urbanisation Economy and Modelling

Youth Entrepreneurship Chris Ehiobuche, Chizoba Madueke, 2017-02-10 The challenges and opportunities facing the Nigerian youths demand rethinking of new ways of doing things Youth unemployment and underemployment are at a record high More than ever the Nigerian youths are in dire need of finding other avenues to explore in pursuit of life endeavors Youth employment underemployment and unemployment are serious concerns for our society civilization and the nation Ehiobuche and Madueke took a different approach to discussing and presenting a practical approach to youth entrepreneurship from the notion of a shared responsibility for the change of mindset from falling into the victims theory dimensions to intelligent ventures and resilience Their model presents insight on how a paradigm shift among the youths and the society in general from job search to business development may well lead to entrepreneurs and self productive citizens The authors hope to inspire inform and encourage today's youths to become tomorrow's entrepreneurs leaders and good citizens Making the transition from seeking employment unemployment or underemployment to self employment entrepreneurship is the primary purpose of this book The topics include the following Conquering personal and cultural roadblocks to entrepreneurship Shifting mental and physical focus from employee to employer Avoiding common pitfalls in starting and running a sustainable small business Making the best out of being a youth

The authors urge the Nigerian youths to avoid falling into a victim mentality and start their paradigm shift into the mindsets of entrepreneurs

Online Othering Karen Lumsden, Emily Harmer, 2019-04-23 This book explores the discrimination encountered and propagated by individuals in online environments The editors develop the concept of online othering as a tool through which to analyse and make sense of the myriad toxic and harmful behaviours which are being created through or perpetuated via the use of communication technologies such as the internet social media and the internet of things The book problematises the dichotomy assumed between real and virtual spaces by exploring the construction of online abuse victims experiences resistance to online othering and the policing of interpersonal cyber crime The relationship between various socio political institutions and experiences of online hate speech are also explored Online Othering explores the extent to which forms of information technologies facilitate exacerbate and or promote the enactment of traditional offline offences such as domestic abuse and stalking It focuses on the construction and perpetration of online abuse through examples such as the far right the alt right and Men s Rights Activists It also explores experiences of and resistance to online abuse via examples such as victims experiences of revenge porn online abuse and misogyny transphobia disability hate crime and the ways in which online othering is intersectional Finally the collection addresses the role of the police and other agencies in terms of their interventions and the regulation and governance of virtual space s Contributions to the volume come from fields including sociology communication and media studies psychology criminology political studies information science and gender studies Online Othering is one of the very first collections to explore a multitude of abuses and their relationship to information and communication technology

Understanding Movement Parties Through their Communication Dan Mercea, Lorenzo Mosca, 2023-03-21 In many countries movement parties have swayed large tracts of the electorate Contributions to this edited book reflect on the place of movement parties in democratic politics through analyses of their communication Reviewing evidence from several countries including cases from Europe Australia and India where movement parties have gained ground in politics this book illuminates the important role that communication has played in their rise as well as the issues surrounding it Movement parties have expressed greater sensitivity to neglected issues a commitment to renewing links with marginalized social groups through more direct chiefly online communication with them as well as an ambition to overhaul both the party organization and the political system In doing so they have signalled a desire to disrupt and reimagine politics Yet the critical examination of their efforts and of the communication environment in which they operate against questions regarding the quality of democracy throws into relief a mismatch between a participation oriented rhetoric and concrete democratic practices Accordingly contributions draw attention to disconnections between a professed need for more immediate and greater participation in movement party organization and policymaking on the one hand their organizational practices and the communication of parties leaders and supporters on the other This book was originally published as a special issue of the journal Information Communication Society

Gaming

Democracy Adrienne L. Massanari, 2024-10-15 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In *Gaming Democracy* Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming *Gaming Democracy* is a novel contribution to our understanding of online platforms and far right political activism [The Routledge Companion to Narrative Theory](#) Paul Dawson, Maria Mäkelä, 2022-07-18

The Routledge Companion to Narrative Theory brings together top scholars in the field to explore the significance of narrative to pressing social cultural and theoretical issues How does narrative both inform and limit the way we think today From conspiracy theories and social media movements to racial politics and climate change future scenarios the reach is broad This volume is distinctive for addressing the complicated relations between the interdisciplinary narrative turn in the academy and the contemporary boom of instrumental storytelling in the public sphere The scholars collected here explore new theories of causality experientiality and fictionality challenge normative modes of storytelling and offer polemical accounts of narrative fiction nonfiction and video games Drawing upon the latest research in areas from cognitive sciences to complexity theory the volume provides an accessible entry point for those new to the myriad applications of narrative theory and a point of departure for new scholarship

Trust Me, I'm Lying Ryan Holiday, 2013-07-02 The cult classic that predicted the rise of fake news revised and updated for the post Trump post Gawker age Hailed as astonishing and disturbing by the Financial Times and essential reading by TechCrunch at its original publication former American Apparel marketing director Ryan Holiday's first book sounded a prescient alarm about the dangers of fake news It's all the more relevant today *Trust Me I'm Lying* was the first book to blow the lid off the speed and force at which rumors travel online and get traded up the media ecosystem until they become real headlines and generate real responses in the real world The culprit Marketers and professional media manipulators encouraged by the toxic economics of the news business Whenever you see a malicious online rumor costs a company millions politically motivated fake news driving elections a product or celebrity zooming from total obscurity to viral

sensation or anonymously sourced articles becoming national conversation someone is behind it Often someone like Ryan Holiday As he explains I wrote this book to explain how media manipulators work how to spot their fingerprints how to fight them and how if you must to emulate their tactics Why am I giving away these secrets Because I m tired of a world where trolls hijack debates marketers help write the news opinion masquerades as fact algorithms drive everything to extremes and no one is accountable for any of it I m pulling back the curtain because it s time the public understands how things really work What you choose to do with this information is up to you

Mastering Open Source Threat Analysis Strategies Vishal Rai,2024-06-03 The book is designed for a practical approach to learning with examples based on scenarios It covers possible OSINT blueprints from the beginning to an advanced level

KEY FEATURES Learn about OSINT and how to set up an OSINT environment for investigations Master techniques for tracking fraud SMS and investigating emails Explore reverse image searching and geolocation strategies

DESCRIPTION OSINT is a powerful technology used to gather and analyze information from publicly available sources It empowers cybersecurity professionals to proactively detect and mitigate threats This book serves as a comprehensive guide offering strategic approaches and practical insights into leveraging OSINT for cybersecurity defense This book is an all encompassing guide to open source intelligence OSINT It meticulously details tools techniques and applications across a multitude of domains The book explores OSINT s use in social media email domains IP addresses images videos documents mobile numbers companies job postings and the dark web It probes OSINT s application for threat intelligence data leak detection understanding encryption and digital certificates assessing fake news reverse image search geolocation workarounds real image identification finding banned organizations handling sensitive information like Aadhar and Social Security Numbers while also tracking fraudulent SMS By the end of this book readers will emerge as competent cybersecurity professionals equipped with the skills and expertise to navigate the ever evolving landscape of cyber threats with confidence and proficiency

WHAT YOU WILL LEARN Understand the fundamentals of OSINT in cybersecurity Securing web browsers and ensuring online privacy Investigating emails and tracking cyber threats Gain insights into tracking mobile identities and domain or IP investigations Enhance cybersecurity defenses with practical case studies

WHO THIS BOOK IS FOR This book is essential for cybersecurity professionals investigators law enforcement and digital forensics analysts seeking advanced OSINT strategies

TABLE OF CONTENTS 1 Setting up OSINT Environment 2 Secure Browsers 3 Exploring OS Security 4 Online Privacy and Security 5 Tail OS in Use 6 Using Tor Browser 7 Advanced Search Tools 8 Sock Puppet Accounts 9 Exploring Footprinting 10 Investigating E mails 11 Utilizing Social Media 12 Tracking Family and Friends 13 Mobile Identity Search 14 Mining Online Communities 15 Investigating Domain and IP 16 Detection of Data Leaks 17 Understanding Encryption and Digital Certificates 18 Access Fake News 19 Reverse Image Search 20 Geo location 21 Identify Real Images 22 Use of Aadhaar and Social Security Number 23 Tracking Fraud SMS

Data Theory Simon Lindgren,2020-09-01 The datafication of our world offers huge challenges and opportunities for social science The data

drivenness of computational research can occur at the expense of theoretical reflection and interpretation. Additionally, it can be difficult to reconcile the quantitative dimensions of big data with the qualitative sensibilities needed for its understanding. At the same time, this opens up possibilities for reimagining key principles of social inquiry. In this experimental and provocative book, Simon Lindgren argues that a hybrid approach to data and theory must be developed in order to make sense of today's ambivalent, turbulent, and media-saturated political landscape. He pushes for the development of a critical science of data, joining the interpretive, theoretical, and ethical sensibilities of social science with the predictive and prognostic powers of data science and computational methods. In order for theories and research methods to be more useful and relevant, they must be dismantled and put together in new, alternative, and unexpected ways. *Data Theory* is essential reading for social scientists and data scientists as well as students taking courses in social theory and data/digital methods, big data, and data and society.

Mapping White Identity Terrorism and Racially or Ethnically Motivated Violent Extremism Heather J. Williams, Luke J. Matthews, Pauline Moore, Matthew A. DeNardo, James V. Marrone, Brian A. Jackson, William Marcellino, Todd C. Helmus, 2022-06-07. The authors reviewed literature on White identity terrorism and racially or ethnically motivated violent extremism (REMVE) and analyzed social media data from six platforms that host extremist content. They developed a network map that evaluates REMVE network construction, connectivity, geographic location, and proclivity to violence and found that users in the United States are overwhelmingly responsible for REMVE discourse online.
