Dear [Mr./Mrs./Ms.] [Hiring Manager's Name],

I feel very enthusiastic writing this letter to apply for the post of STEM Teacher at your organization [company name]. Possessing a well-built educational background in science, technology, engineering, and mathematics coupled with a keen interest and love for learning and providing education to students, I am looking forward to showcasing my skills and accomplishments in your intriguing STEM program.

I acquired a license for teaching, an experience of [x years], and have consistently demonstrated my ability to engage students in STEM subjects and monitor student's performance.

Listed below are my major accomplishments: -

- Designed STEM curriculum, inclusive of project-based learning this led to improvement in student engagement and enthusiasm towards the subjects.
- To improve students' digital literacy skills and utilize the STEM-related software, implemented technology tools and resources.
- I hold a STEM club membership and have provided students to explore STEM concepts outside the regular curriculum.
- Collaborated with parents to establish a good home-school relationship
- To be well-versed with the latest advancements in STEM education, I have taken part in professional development programs. This helped me in teaching effectiveness.

The motto of focusing on academic performance, quality, learning atmosphere, and personal growth has attracted me to apply for the position of STEM teacher in your capacity [Organization/company name]. I have the confidence that my knowledge, passion, and skill as a teacher and devoted nature towards education and providing a positive learning environment align with your school's commitment to excellence in education.

I appreciate your consideration. I look forward to converse further about how my knowledge and background match with what your school requires.

Sincerely,  
[Your Name]

**Kuby Immunology** Jenni Punt, Sharon Stranford, Patricia Jones, Judy Owen, 2018-10-16 Janis Kuby's groundbreaking introduction to immunology was the first textbook for the course actually written to be a textbook. Like no other text, it combined an experimental emphasis with extensive pedagogical features to help students grasp basic concepts. Now in a thoroughly updated new edition, Kuby Immunology remains the only undergraduate introduction to immunology written by teachers of the course. In the Kuby tradition, authors Jenni Punt, Sharon Stranford, Patricia Jones, and Judy Owen present the most current topics in an experimental context, conveying the excitement of scientific discovery and highlighting important advances, but do so with the focus on the big picture of the study of immune response enhanced by unsurpassed pedagogical support for the first-time learner. Punt, Stranford, Jones, and Owen bring an enormous range of teaching and research experiences to the text, as well as a dedication to continue the experiment-based pedagogical-driven approach of Janis Kuby. For this edition, they have worked chapter by chapter to streamline the coverage to address topics that students have the most trouble grasping and to continually remind students where the topic at hand fits in the study of immunology as a whole.
