secret that steering a business has become dramatically more complex and uncertain in our modern era. Constant exploration of new territory by teams is the name of the game. Yet most companies are stuck with yesterday's approach to problem solving. Problem solving needs to be reinvented to meet today's challenges. The future of business depends on it. Having reached the highest levels of the Fortune 500, digital disrupter Atif Rafiq has written *Decision Sprint* to pull the curtain back on the hidden management systems within your organization that impact how people think, collaborate, and make decisions. Talent is vital to any company's advancement, but it's the collaboration and problem-solving systems that separate industry leaders from the rest. Systems designed to embrace unknowns are the quickest, most enduring way to foster growth, continuous innovation, and results. Learn how teams begin with upstream work, the phase of a promising idea or initiative where the unknowns predominate, to problem-solve anything, thus unlocking downstream actions from alignment to decision-making to execution. With Rafiq's guidance, you'll overtake your competitors by moving upstream, embracing workflows that convert unknowns to clear recommendations, alignment, and action. In addition, you'll receive direct advice from the CEOs/presidents of H.R. Block, Volvo, Peacock, Restaurant Brands, Orange Theory Fitness, among others, and learn from in-depth case studies such as Amazon's disruption of publishing, the massive digital transformation of McDonald's, the secret of launch of Apple Pay, Volvo's push for sustainability, and more. Four Days a Week Juliet Schor, 2025-06-03. Bestselling author, leading sociologist, and economist Juliet Schor makes the case for a four-day work week persuasively, showing how this model can address major challenges such as burnout, AI, and the climate crisis, and how employees, companies, and governments can work together to make it a reality. Around the world, long hours and intense pressure are taking their toll. When the pandemic hit in 2020, work-induced stress and burnout skyrocketed. Many reached a breaking point. Now, three quarters of the world's employees are disengaged and struggling, including in the US and Canada, where half are experiencing high levels of daily stress. Our current work culture, the five-day, forty-hour-a-week model, which has gone unchanged for nearly a century, is failing. But a remedial countertrend has emerged: the four-day work week. Kickstarter, Bolt, Basecamp, ThredUp, and hundreds of other employers have eliminated the fifth day of work successfully, figuring out how to maintain productivity while seeing remarkable improvements in employee well-being. Hiring is easier, and fewer people are quitting. These results are global. Working a four-day week, people feel energized, capable, and more optimistic about their lives and their jobs. *Four Days a Week* is the first large-scale study of this trend. Juliet Schor, an expert who has researched and written about work for more than four decades, beginning with her New York Times bestseller *The Overworked American* in 1992, shares her pioneering analysis of the benefits of a shorter work week, how companies can achieve them, why the concept has taken so long to emerge and gain acceptance, and why doing so will help a company's employees and its bottom line. The book is a blueprint for implementing a change that once seemed radical but is now within reach.
