Why Because if a Mechanic creates a marketing campaign based on its belief that it is a Missionary the underlying positioning will not ring true and the company won't gain a foothold in the market But if a company positions itself in alignment with its DNA it will resonate authentically and establish its role and relevance even in the face of a major competitor Get to Aha presents a clear step by step framework that will help you determine your company's precise position in the marketing landscape using Andy's DNA based methodology It takes you through the process of performing genetic testing on your company examining the market through the six Cs of positioning and developing your positioning statement a rational factual statement about your company's role and relevance Then and only then can you create a branding and marketing strategy that will build market momentum and crush the competition Trust Andy Steve Jobs did **Is It Wrong**
