creativity are more crucial than ever. It is no longer possible or even desirable to learn one set of job skills and to work your way up the ladder. At the same time, entrepreneurs with great ideas for new products or technologies that could change the world often struggle to capture the attention of venture capital firms and incubators. Finding the funding necessary to launch a start-up can feel impossible. The business leaders of our future must anticipate change to create their own opportunities for personal satisfaction and professional success. Samit has been at the helm of businesses in the e-commerce, digital video, social media, mobile communications, and software industries, helping to navigate them through turbulent economic times and guide them through necessary transformation so that they stay ahead of the curve. In *Disrupt You*, he reveals how specific strategies that help companies flourish can be applied at an individual level to help anyone achieve success and lasting prosperity without needing to raise funds from outside investors. Incorporating stories from his own experience and anecdotes from other innovators and disruptive businesses, including Richard Branson, Steve Jobs, Elon Musk, YouTube, Cirque du Soleil, Odebrecht, Iams, Silly Putty, and many more, Samit shows how personal transformation can reap entrepreneurial and professional rewards. *Disrupt You* offers clear and empowering advice for anyone looking to break through for anyone with a big idea but with no idea how to apply it, and for anyone worried about being made irrelevant in an era of technological transformation. Chain Store Age ,2008 *The Myth of Chinese Capitalism* Dexter Roberts,2020-03-10. The vivid, provocative, untold story of how restrictive policies are preventing China from becoming the world's largest economy. Evan Osnos. Dexter Roberts lived in Beijing for two decades, working as a reporter on economics, business, and politics for Bloomberg Businessweek. In *The Myth of Chinese Capitalism*, Roberts explores the reality behind today's financially ascendant China and pulls the curtain back on how the Chinese manufacturing machine is actually powered. He focuses on two places: the village of Binghuacun in the province of Guizhou, one of China's poorest regions that sends the highest proportion of its youth away to become migrants, and Dongguan, China's most infamous factory town located in Guangdong, home to both the largest number of migrant workers and the country's biggest manufacturing base. Within these two towns and the people that move between them, Roberts focuses on the story of the Mo family, former farmers turned migrant workers who are struggling to make a living in a fast-changing country that relegates one half of its people to second-class status via household registration, land tenure policies, and inequality in education and health care.

systems In *The Myth of Chinese Capitalism* Dexter Roberts brings to life the problems that China and its people face today as they attempt to overcome a divisive system that poses a serious challenge to the country's future development In so doing Roberts paints a boots on the ground cautionary picture of China for a world now held in its financial thrall Praise for *The Myth of Chinese Capitalism* A gimlet eyed look at an economic miracle that may not be so miraculous after all Kirkus Reviews A clearheaded and persuasive counter narrative to the notion that the Chinese economic model is set to take over the world Readers looking for an informed and nuanced perspective on modern China will find it here Publishers Weekly A sophisticated and readable take of China's triumphs and crises A first hand witness to China's transformation over the past quarter century Roberts credibly challenges the myth of China's inevitable rise and global dominance Ian Johnson Pulitzer Prize winning author and Beijing based correspondent A potent mix of personal stories and deft analysis *The Myth of Chinese Capitalism* takes a hard look at China's migrants and rural people Mei Fong Pulitzer Prize winning journalist and author of *One Child The Story of China's Most Radical Experiment* **Cyber Forensics** Jr., Albert Marcella, Robert S.
