DER Management Update ,1992-12 **American Crucible** Gary Gerstle,2017-02-28 This sweeping history of twentieth century America follows the changing and often conflicting ideas about the fundamental nature of American society Is the United States a social melting pot as our civic creed warrants or is full citizenship somehow reserved for those who are white and of the right ancestry Gary Gerstle traces the forces of civic and racial nationalism arguing that both profoundly shaped our society After Theodore Roosevelt led his Rough Riders to victory during the Spanish American War he boasted of the diversity of his men s origins from the Kentucky backwoods to the Irish Italian and Jewish neighborhoods of northeastern cities Roosevelt s vision of a hybrid and superior American race strengthened by war would inspire the social diplomatic and economic policies of American liberals for decades And yet for all of its appeal to the civic principles of inclusion this liberal legacy was grounded in Anglo Saxon culture making it difficult in particular for Jews and Italians and especially for Asians and African Americans to gain acceptance Gerstle weaves a compelling story of events institutions and ideas that played on perceptions of ethnic racial difference from the world wars and the labor movement to the New Deal and Hollywood to the Cold War and the civil rights movement We witness the remnants of racial thinking among such liberals as FDR and LBJ we see how Italians and Jews from Frank Capra to the creators of Superman perpetuated the New Deal philosophy while suppressing their own ethnicity we feel the frustrations of African American servicemen denied the opportunity to fight for their country and the moral outrage of more recent black activists including Martin Luther King Jr Fannie Lou Hamer and Malcolm X Gerstle argues that the civil rights movement and Vietnam broke the liberal nation apart and his analysis of this upheaval leads him to assess Reagan s and Clinton s attempts to resurrect nationalism Can the United States ever live up to its civic creed For anyone who views racism as an aberration from the liberal premises of the republic this book is must reading Containing a new chapter that reconstructs and dissects the major struggles over race and nation in an era defined by the War on Terror and by the presidency of Barack Obama *American Crucible* is a must read for anyone who views racism as an aberration from the liberal premises of the republic *Future-Ready Geography* Danuta Piróg,Agnieszka Świątek,2025-03-27 This book presents research on how geography as a science as a university degree and as a school subject can get ready for the future Today s world is in a state of permanent and radical change which is affecting society science and the economy in equal measure The concurrent processes of globalisation digitisation and integration shape and constantly modify the development factors and generate multidirectional social changes Growing global issues related to climate change food security depletion of conventional energy sources conflicts and wars refugee crisis and pandemic open up new issues for geographic investigations as well as reinforce the need to examine old research topics covering a variety of subdisciplines That is why the term future ready is being more frequently used in discourses on geographic research In particular geographic education at schools should be subject to discussion and reflection as this is where our learners are

primed to understand the world around them The chapters of this book spread the knowledge about the role of geography in preparing the society for the future The book responds to environmental socio economic and political issues of global regional and local impact It provides methods techniques and tools of data collection and analysis which efficiently support geographers in future oriented research and help in forecasting environmental and social changes Finally this volume also discusses how to reinforce the position of geography as science and school subject today and in the future

Mental health challenges in academia are prevalent but often overlooked aspects of education. Students, researchers and faculty face pressure to perform, publish and compete in a demanding and often isolating environment. The pursuit of academic excellence while rewarding can come at the cost of well-being, with high rates of anxiety, depression, burnout and imposter syndrome reported across all levels of academic institutions. As awareness of these issues grows, it is crucial to examine the systemic and cultural factors that contribute to poor mental health in academia and explore meaningful solutions to support students and faculty navigating its challenges. *Mental Health Challenges in Academia: Stressors Faced by Students and Faculty* explores mental health issues prevalent in academic settings such as anxiety, depression and burnout. It provides insights into the unique stressors faced by students and faculty, fostering a deeper understanding of the academic environment's impact on mental health. This book covers topics such as grief, counseling, social media and work-life balance and is a useful resource for business owners, educators, psychologists, sociologists, academicians, researchers and scientists. Public Behavioural Responses to Policy Making during the Pandemic Noriko Suzuki, Xavier Mellet, Susumu Annaka, Masahisa Endo, 2022-11-30 This book provides a comparative study of people's mask wearing behaviour in response to government policies between European Northern America and Asian countries Examining citizens attitudes towards their state during the COVID 19 pandemic from the perspectives of history linguistics politics economics and sociology the contributors in this volume explore to what extent people accept the wearing of masks in countries where governments have

made it mandatory as compared to countries where people wear masks voluntarily The book thus looks at mask wearing from a political dichotomy between authoritarianism and liberalism and posits the extent to which political divisions could have existed in public opinion over the measures taken against COVID 19 Filled with invaluable insights through research in 13 countries this book will appeal to readers in policy making and influencing public opinion via the Europe Asia comparative study

Social Work in General Practice E. Matilda Goldberg, June E. Neill, 2021-11-07 In the early 1970s general practitioners were well aware that they were being asked to deal not only with physical illness in their patients but also with the stresses relating to social and emotional problems Increasingly often they were working together with health visitors and social workers in attempting to respond more effectively to these demands Originally published in 1972 this study describes the attachment of a social worker to a group general medical practice in London indicating why for all social groups the general practice is an appropriate point at which psychosocial problems may be identified and treated The authors describe the nature and range of patients problems that come to light in the consulting room how patients present their problems to the social worker and the kind of help the social worker is able to offer They explore the extent to which the general practice setting provides opportunities for preventive therapy and further describe how social work in general practice can most effectively be related to existing social services in the community particularly to the reorganised personal social services Their findings are supported throughout by illuminating case studies The book also discusses the integration of the social worker into the general practice team the problems that have to be solved and the mutual enlightenment that results This emerges as an extremely encouraging and instructive experiment which will immediately interest social service departments and social workers doctors and nurses both students and those in practice The wide spectrum of social problems encountered and dealt with by the social worker in a general practice make it a particularly stimulating account
