[Waiting for Service](#) Amas Tenumah,2021-12-25 You hate waiting in line or on the phone for customer service There have been plenty of books about customer service that all seem to offer secrets to improve customer service This is not that book I instead want to focus on Why customer Service is so broken and give you the secrets to get around it Customer service is bad by design Your bad customer service is not random it is intentional Customer Service is universally terrible this is not an opinion You do not have to believe me I am saying it is raining outside and you can simply look out the window I spent two decades helping dozens of your favorite brands with customer service You will laugh get mad all over again at some of the conversations I have had with executives around customer service I name names expose Customer Service nightmares from Travel to Cable Walmart fast food and so much I also provide you with how to get around bad service and offer radical thinking to reset customer service [7 Steps to Exceptional Customer Care](#) Dominique Ntirushwa,2012-06-01 The Angels of the Company From my experience in customer care I have realized that the ability for any organization to be able to offer exceptional customer service will always start with the individual offering the service Companies can invest heavily in many other things that are necessary to offer exceptional customer service but just one individual can make that service lose all its value just as they can also do much to enhance it One of the greatest CEOs I have known Mr Khaled Mikkawi the CEO of MTN Rwanda once told me and the team I was working with we were the angels of the company You the Customer Care Department are the most important people in the company he said Technology departments can work for months to have the networks available to acquire new subscribers sales and marketing departments will work day and night to acquire new subscribers human resources will invest a lot in training and development to equip the staff adequately to be able to acquire new subscribers and grow the base but it only takes seconds for the customer care team to lose the company customer after customer Just a few words a look a reaction the smallest thing and the company can lose the hard work from weeks months and even years When I started writing this book someone asked me a very interesting question Are you trying to say that

anyone any person can offer exceptional customer service Now this is not an easy question to answer because there are many qualities that an individual needs to have to be able to offer exceptional customer service But this is what I think There are things that anyone any person can do to be able to offer exceptional customer service However not everyone is willing to do these things I strongly believe everyone who takes this 7 step journey should be able to offer exceptional customer service Your current background attitude education etc don t matter because these 7 steps break down all those barriers
