Monthly Film Bulletin ,1959 *Handbook of Children's Rights* Martin D. Ruck,Michele Peterson-Badali,Michael Freeman,2016-12-08 While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and political commitment to children s rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults In addition there has been a noticeable shift in orientation from a focus on children s protection and provision to an emphasis on children s participation and self determination With contributions from a wide range of international scholars the Handbook of Children s Rights brings together research theory and practice from diverse perspectives on children s rights This volume constitutes a comprehensive treatment of critical perspectives concerning children s rights in their various forms Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children s rights including the best interests of the child evolving capacities of the child states rights versus children s rights rights of children versus parental or family rights children as citizens children s rights versus children s responsibilities and balancing protection and participation In addition to its multidisciplinary focus the handbook includes perspectives from social science domains in which children s rights scholarship has evolved largely independently due to distinct and seemingly competing

assumptions and disciplinary approaches e g childhood studies developmental psychology sociology of childhood anthropology and political science The handbook also brings together diverse methodological approaches to the study of children s rights including both quantitative and qualitative perspectives and policy analysis This comprehensive cosmopolitan and timely volume serves as an important reference for both scholarly and policy driven interest in the voices and perspectives of children and youth
