Posthumanism in Practice Christine Daigle, Matthew Hayler, 2023-01-12 Problematic assumptions which see humans as special and easily defined as standing apart from animals plants and microbiota both consciously and unconsciously underpin scientific investigation arts practice curation education and research across the social sciences and humanities This is the case particularly in those traditions emerging from European and Enlightenment philosophies Posthumanism disrupts these traditional humanist outlooks and interrogates their profound shaping of how we see ourselves our place in the world and our role in its protection In Posthumanism in Practice artists researchers educators and curators set out how they have developed and responded to posthumanist ideas across their work in the arts sciences and humanities and provide examples and insights to support the exploration of posthumanism in how we can think create and live In capturing these ideas Posthumanism in Practice shows how posthumanist thought can move beyond theory inform action and produce new artefacts effects and methods that are more relevant and more useful for the incoming realities for all life in the 21st century

Island Tinkerers Honghong Tinn, 2025-01-07 How Taiwan rose to global prominence in high tech manufacturing from computer maker to the world s leading chip manufacturer How did Taiwan a former Japanese colony and the last fortress of the defeated Chinese Nationalists ascend to such heights in high tech manufacturing In Island Tinkerers Honghong Tinn tells the critical history of how hobbyists and enthusiasts in Taiwan including engineers technologists technocrats computer users and engineers turned entrepreneurs helped transform the country with their hands on engagement with computers Rather than engaging in wholesale imitation of US sources she explains these technologists tinkered with imported computing technology and experimented with manufacturing their own versions resulting in their own brand of successful innovation Defying the stereotype of the West innovates and the East imitates Tinn tells the story of Taiwanese technologists efforts over the past six decades Beginning in the 1960s they

grappled with the black boxed computers that were newly available through international technical aid programs Shortly after multinational corporations that outsourced transistor and integrated circuit assembly overseas began employing Taiwanese engineers and factory workers Island tinkerers developed strategies to adapt modify assemble and work with computers in an inventive manner It was through this creative and ingenious tinkering with computers that they were able to gain a better understanding of the technology opening the door to future manufacturing endeavors that now include Acer Foxconn Asus and Taiwan Semiconductor Manufacturing Company TSMC

The X86 Microprocessors: Architecture and Programming (8086 to Pentium) Lyla B. Das,2010-09 *An Economic Analysis on Automated Construction Safety* Rita Yi Man Li,2017-08-09 This book addresses information technologies recently applied in the field of construction safety Combining case studies literature reviews and interviews to study the issue it presents cutting edge applications of various information technologies ITs in construction in different parts of the world together with a wealth of figures tables and examples Though primarily intended for researchers and experts in the field the book will also benefit graduate students
