Direct Loans School Guide, 1999 *Federal Register*, 2013-07 **Resources in Education**, 2000 **Financial Basics** Susan Knox, 2004 Jason is typical of today's college students who are assuming unprecedented debt burdens because of relaxed limits on student loans and easily obtained credit cards. Many on college campuses are calling it a fiscal crisis. *Financial Basics* tackles the gaps in the personal financial knowledge of college students. Beginning with debit credit card issues, student loan decisions, and the challenge of managing and reducing debt, Knox walks readers through money management. She skillfully addresses the how-to's of checking accounts, spending plans, emergency funds, and credit histories. She discusses financial personalities and the emotions of money, as well as practical record keeping and simple filing techniques. In *Financial Basics*, Knox blends her extensive money management experience with her desire to inform and help students master their finances; she shares experiences about money lessons learned in college and offers sound solutions and advice for students and their families. Since everyone does not handle money in the same way, Knox gives money management options for readers to find their best way. The book includes helpful worksheets and is written in an easy-to-read style using testimonials and examples that will ring true to students.

Crisis Narratives, Institutional Change, and the Transformation of the Japanese State Sebastian Maslow, Christian Wirth, 2021-11-01 Mired in national crises since the early 1990s, Japan has had to respond to a rapid population decline, the Asian and global financial crises, the 2011 triple disaster of earthquake, tsunami, and the Fukushima nuclear meltdown, the COVID-19 pandemic, China's economic rise, threats from North Korea, and massive public debt. In *Crisis Narratives, Institutional Change, and the Transformation of the Japanese State*, established specialists in a variety of areas use a coherent set of methodologies, aligning their sociological, public policy, and political science and international relations perspectives to account for discrepancies between official rhetoric and policy practice and actual perceptions of decline and crisis in contemporary Japan.
