rise along with Jack Ma's offers a fascinating window onto China's staggering transformation. The Wall Street Journal. In just a decade and half Jack Ma, a man who rose from humble beginnings and started his career as an English teacher, founded and built Alibaba into the second largest Internet company in the world. The company's \$25 billion IPO in 2014 was the world's largest, valuing the company more than Facebook or Coca-Cola. Alibaba today runs the e-commerce services that hundreds of millions of Chinese consumers depend on every day, providing employment and income for tens of millions more. A Rockefeller of his age, Jack has become an icon for the country's booming private sector and as the face of the new consumerist China is courted by heads of state and CEOs from around the world. Granted unprecedented access to a wealth of new material, including exclusive interviews, Clark draws on his own first-hand experience of key figures integral to Alibaba's rise to create an authoritative, compelling narrative account of how Alibaba and its charismatic creator have transformed the way that Chinese exercise their new-found economic freedom, inspiring entrepreneurs around the world and infuriating others, turning the tables on the Silicon Valley giants who have tried to stand in his way. An expert insider with unrivaled connections, Clark has a deep understanding of Chinese business mindset. He illuminates an unlikely corporate titan as never before and examines the key role his company has played in transforming China while increasing its power and presence worldwide. A must-read for anyone hoping to navigate China's new economy. Financial Times

Congressional Record
United States Congress, 2010. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Qualitative Research Methods for Media Studies
Bonnie S. Brennen, 2025-01-20. This fully updated fourth edition provides students and researchers with the tools they need to perform critically engaged, theoretically informed research using methods that include interviewing, focus groups, historical research, oral histories, textual analysis, ethnography, and participant observation and digital ethnography and netnography. Each chapter features step-by-step instructions that integrate theory with practice, as well as a case study drawn from published research demonstrating best practices for media scholars. Readers will also find in-depth discussions of the challenges and ethical issues that may confront researchers using a qualitative approach. With new case studies and examples throughout, this fourth edition also includes updated and expanded material on performing data analysis, how to analyze and understand research findings, performing social media research, and the use of big data and Artificial Intelligence (AI). This includes a brand new chapter on generative AI, which examines recent advancements and technological developments and considers ways qualitative researchers can use it for their research. A comprehensive and accessible guide for those hoping to explore this rich vein of research methodology, this book provides students and scholars with all the tools they need to be able to work with in today's convergent media environment.
