Here are some really interesting benefits of meal prep which most of us do not consider seriously Let us have a quick look at some of the most important benefits

- 1 Save money When we go for grocery shopping we have to take care of the budget and most of the times we choose to buy products in less quantities as we have the thought in mind that we will not require too much of the particular product at a time Now if we prepare a meal and in large quantity we will obviously need more of the product This can save a lot of money as buying in bulk obviously means lesser price Instead of buying only one pound of beef we can buy a couple of pounds and use it for making two or three different dishes and store them for future Same is applicable for all other grocery products other than fresh vegetables and we will be overwhelmed to find the price difference between small quantity purchase and bulk purchase
- 2 Saving time Time is the most important factor that is to be considered when meal prep is being discussed The sole purpose of meal prep is to save the time while cooking delicious and healthy food When you have the detailed recipe and all the necessary ingredients at your disposal it will take less time to cook a large dish In this way you save time and energy but are still able to provide yourself with great food at home Multitasking becomes possible when you cook several dishes at a time as you will not have to spend time on cleaning up separately after cooking each dish There will be fewer utensils to clean up after cooking and when you will be enjoying the prepared food throughout the week you will just have to clean up the storage containers and serving plates after eating
- 3 Control over nutrition Meal planning will enable you to have better control on your nutrition consumption If you go according to the plan you will be consuming exactly what is necessary to maintain your health People who are under special diet are likely to reap the best benefits through meal preparation When you cook your meal you actually know exactly what you are eating In comparison to processed food where we are not completely aware of the several artificial colors and flavor and thus consume them without knowing about the adverse effects Meal prep is also helpful in controlling the portion of the meal You can measure out the exact amount of food you will be able to eat in a serving Storing the rest for later will not only keep you healthy but will

Meal Prep: Cookbook and Guide Vigor & Belle, 2016-11-02 MEAL PREP COOKBOOK GUIDE vigor belle is a lifestyle brand for healthy eating and beauty that can change the way you live your life If you constantly find yourself rushing from A to B while crying in vain to find enough time to prepare a meal you may need a bit of a helping hand When you have a bit of free time on a Sunday for example you should think about preparing your meals for the coming week I've been preparing meals for years it's something my mother always did and what I still do Meal Preparation Benefits Meal preparation can make life a lot easier particularly if you would like to sit down to a homemade dinner but you simply don't have the time to make one You should set aside at least a few hours each week in order to prepare your meals but doing so will save you a lot of time How will it save me time Preparing meals in one go will save you a lot of time You will no longer have to stand in front of your oven every night and you will no longer have a huge pile of dishes to clean A once a week meal prep Session means you will only have to stand in front of your oven for a few hours once a week You will also have fewer dishes to wash too and that can only be a good thing Budget Friendly Meals that you cook from scratch can be very budget friendly which means you have the potential to save yourself quite a bit of cash Eating out ordering take outs and consuming TV dinners can cost quite a lot of money We can easily spend 200 300 dollars a month on TV dinners for the whole family throw on everything else and the costs spiral When you cook a meal from scratch chances are you're going to be using the same ingredients again and again This means that the little pot of mixed herbs you bought last week can potentially last you for months if you only use 1 sprinkle per meal Those fresh vegetables that you buy from your local market won't cost as much as they do in your local store and they'll stay fresher for longer too Meals Lasting 4 5 Days The meals that are contained within this eBook typically keep for 4 5 days if you store them in the refrigerator One trick that I've found very useful when making a batch of meals is to stick a label on the tubs and pots I keep them in That way if I or one of my family members fancies a meal they can tell what's in the tub and when it was cooked Meals can last 4 5 days sometimes a little longer but you need to be careful when you keep food in the refrigerator Chicken and pork should be eaten up as quickly as possible and prawns are just as important too You should not consume any chicken pork or prawn meals that have been in your refrigerator for any more than 5 days Freezing Meals When it comes to freezing meals you have a real potential to save yourself a lot of time while also having a delicious meal to hand whenever you want one You will need to make sure that you don't re-freeze meat or fish Including prawns that has previously been frozen If you're not sure whether the ingredients you're using have been frozen
