The Lowering of Higher Education in America Jackson Toby, 2009-11-12 A top educator looks at the causes and national costs of the lowering of college admission and academic standards in the United States then proposes confronting the problem by tying federal student grants and loans to academic performance as well as to financial need After a half century of teaching distinguished educator Jackson Toby concludes that all too often our current system gives high school students the impression that college is an entitlement and not a challenge The Lowering of Higher Education Why Financial Aid Should be Based on Student Performance is Toby's unflinching look at this broken system and the ways it can be fixed The Lowering of Higher Education documents just how far college admission standards have fallen then measures the cost of remedial programs for underprepared high school students just to get them to where they should have been in the first place Toby also pulls no punches on the issue of grade inflation which rewards laziness while demoralizing hard working students In conclusion Toby proposes an innovative solution base financial aid solely on academic performance creating a compelling incentive for students to develop serious attitudes and study approaches in high school The USA TODAY College Football Encyclopedia 2009-2010 Bob Boyles, Paul Guido, 2009-08 The most comprehensive resource on college football ever published

USA Today Index ,1996 **The Meritocracy Trap** Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people **America's Best Colleges** ,2008 **U.S. News & World Report** ,2005 **The USA TODAY College Football**
