The Best Interface Is No Interface Golden Krishna, 2015-01-31 Our love affair with the digital interface is out of control We've embraced it in the boardroom the bedroom and the bathroom Screens have taken over our lives Most people spend over eight hours a day staring at a screen and some technological innovators are hoping to grab even more of your eyeball time You have screens in your pocket in your car on your appliances and maybe even on your face Average smartphone users check their phones 150 times a day responding to the addictive buzz of Facebook or emails or Twitter Are you sick There's an app for that Need to pray There's an app for that Dead Well there's an app for that too And most apps are intentionally addictive distractions that end up taking our attention away from things like family friends sleep and oncoming traffic There's a better way In this book innovator Golden Krishna challenges our world of nagging screen based bondage and shows how we can build a technologically advanced world without digital interfaces In his insightful raw and often hilarious criticism Golden reveals fascinating ways to think beyond screens using three principles that lead to more meaningful innovation Whether you're working in technology or just wary of a gadget filled future you'll be enlightened and entertained while discovering that the best interface is no interface

Implementing iOS-Apps with iCloud Support Andreas Bachmaier, 2013-03-04 Bachelor Thesis from the year 2013 in the subject Computer Science Programming grade 1 University of Applied Sciences Technikum Vienna Informations und Kommunikationssysteme course Smartphone Platforms language English abstract Nowadays Information is an important asset for us in the professional but also private life The mobile phone is our constant companion and tablets gain more and more popularity because of the ease of use screen size larger virtual keyboard In addition to these mobile devices a lot of users maybe also own a laptop or a desktop computer Many applications apps are using the cloud to synchronize the data on different devices Apple's solution for the cloud service is currently iCloud
