know what's on your mind *Stop Autism Now!* Bruce Fife, 2017-08-11 Over 1 million people have autism Childhood developmental disabilities of all type is rapidly growing including autism attention deficit hyperactivity disorder ADHD epilepsy mental retardation and others Currently in the United States 4 million children have attention deficit hyperactivity disorder the most common learning disability and an incredible one in six children are classified as learning disabled Why the sudden astronomical rise in developmental disabilities Most doctors have no clue what causes autism nor any idea how to prevent or even treat it The only medically recognized form of treatment is an attempt to teach affected children how to manage the disorder and live with it Antidepressants antipsychotics and stimulants are often prescribed to help cope with symptoms No possibility of a cure is offered as the condition is considered permanent in other words hopeless Autism however is not a hopeless condition It can be prevented and successfully treated without the use of drugs This book describes an innovative new dietary and lifestyle approach that has proven very successful in reversing even some of the most severe developmental disorders allowing once disabled children to enter regular school and lead normal happy productive lives There is a solution You can stop autism now Dr Fife has done an outstanding job on *Stop Autism Now* This book gives the latest stats on the pervasiveness of autism spectrum disorder and more importantly viable solutions With food lists and recipes galore Dr Fife makes the diet doable and manageable and worth your effort to try it Carolyn Dean MD ND Author of *The Magnesium Miracle* Bruce Fife has produced another masterpiece Autism is a subject that I have spent a good deal of time analyzing researching and writing about and no one does a better job condensing and explaining what is known about this terrible disorder than does Doctor Fife His advice designed to treat this disorder is based on good science and practical experience This book will help millions of children who have become a victim of a health policy gone mad Parents should all have this book on their bookshelves and refer to it often Russell L Blaylock M D Author of *Excitotoxins The Taste That Kills* Theoretical Neurosciences Research LLC Visiting Professor of Biology Belhaven University Jackson Ms Clinical Assistant Professor of Neurosurgery University of Mississippi retired **Gluten-free and sugar-free recipes 80 low-carb recipes that help fight celiac disease, diabetes and weight loss**, 2024-04-05 I am not sensitive to gluten as my previous books attest However neither am I immune to the dietary challenges brought about by the passionate consumption of products made with wheat as anyone who has seen me also knows There was a time when I was lean and mean and then I opened a bakery and began a love affair with bread products of all types Back in 1971 when I was twenty one I participated in a communally operated vegetarian restaurant in Boston in which no white flour white sugar or white rice was permitted to cross the threshold I read everything I could find on nutrition and various popular food philosophies of the time such as macrobiotics raw foods and sprouts wheat grass therapy food combining and juicing I even met Jack LaLanne one of my personal fitness heroes For three years I ate only organically grown food and unrefined whole grains and all of my childhood allergies and food sensitivities seemed to fade away At five feet six inches I weighed a lithe 136 pounds and felt great At the

end of those three years we sold the restaurant and everyone moved on and in the next phase of my journey I once again became an omnivore Even as my weight gradually increased I maintained excellent health which I attributed to those three dynamic years of immersion in a healthful lifestyle By the time my wife Susan and I opened our own restaurant and bakery in 1986 I weighed 155 pounds and had become stocky When we sold the business seven years later I was up to 165 pounds and would have been heavier were it not for the daily physically intense work of baking thousands of loaves of bread which helped me burn off a lot of calories As soon as I stepped out of daily production and transitioned into teaching at culinary schools and writing books I started gaining more weight and quickly The accumulated effects of tasting glorious white flour breads of all types along with access to the handiwork of fabulous chefs and restaurants to which I lost all ability to say no caused my weight to balloon to over 200 pounds Searching for the perfect pizza as I researched my book *American Pie* didn't help either but I sure was having fun Fortunately I never stopped working out so even though I was to put it bluntly fat it was firm fat marbled with muscle Nonetheless it was cause for concern especially that most pernicious of fats belly fat So recently with Susan's encouragement I decided it was time to get serious about losing weight I had already met Denene Wallace a few years earlier at a private tasting of some of her gluten free products and was impressed with how good they were Gluten sensitivity is a subject I had been tracking since 1991 shortly after my first book *Brother Juniper's Bread Book* came out Around that time Loree Starr Brown who had been a regular customer at Brother Juniper's Bakery came in one day with a box of homemade breads and muffins based on the recipes in my book but all made with rice flour instead of wheat flour They were delicious Loree proceeded to educate me about celiac disease a medical condition that nearly killed her before it was finally diagnosed and treated by removing all traces of gluten from her diet
