British
Generals in Blair's Wars Jonathan Bailey, Richard Iron,2016-04-15 *British Generals in Blair's Wars* is based on a series of high

profile seminars held in Oxford in which senior British officers predominantly from the army reflect on their experience of campaigning. The chapters embrace all the UK's major operations since the end of the Cold War but they focus particularly on Iraq and Afghanistan. As personal testimonies they capture the immediacy of the authors' thoughts at the time and show how the ideas of a generation of senior British officers developed in a period of rapid change against a background of intense political controversy and some popular unease. The armed forces were struggling to revise their Cold War concepts and doctrines and to find the best ways to meet the demands placed upon them by their political leaders in what was seen to be a New World Order. It was a time when relations between the Government of the day and the armed services came under close scrutiny and when the affection of the British public for its forces seemed to grow with the difficulty of their operational tasks. This is a truly unique and invaluable book. For the first time we are offered first hand testimony about Britain's involvement in recent campaigns by senior participants. In addition to touching on themes like civilian military relations, the operational direction of war and relationships with allies, these eyewitness accounts give a real sense of how the character of a war changes even as it is being fought. It will be essential reading for those in military academies and staff colleges not only in Britain but throughout NATO and especially in the USA. It also has profound policy implications as both the UK and NATO more generally reassess their strategies and the value of intervention operations. It will also become a primary source for historians and students of the wars in Iraq and Afghanistan in particular.

The AFib Cure, Updated Edition John D. Day, T. Jared Brunch, 2025-05-20. Most doctors will tell you that there isn't much you can do to treat atrial fibrillation aside from taking medications for the rest of your life. Cardiologists and fib specialists John D. Day and T. Jared Brunch disagree. Atrial fibrillation strikes one in four American adults. Not only do people suffering from this condition suffer from shortness of breath, fatigue, chest discomfort, decreased ability to exercise, and do activities of daily living, arrhythmia, and palpitations, but their risk of a stroke, cognitive decline, and dementia, heart failure, or premature death also shoots way up. Today, a whole new body of research, one most physicians are unaware of, shows that biomarker and lifestyle optimization may put half the cases of atrial fibrillation into remission without drugs or procedures. And for those in whom these remedies are insufficient or not tolerated, new procedures in combination with biomarker and lifestyle optimization may offer lifetime remission from atrial fibrillation and its devastating consequences. In clear, accessible, patient-centric language, Drs. Day and Brunch share their revolutionary approach to treating atrial fibrillation, developed through a combined 53 years working with fib patients. The effectiveness of their plan has been proven through countless medical studies. And now in *The AFib Cure: Get Off Your Medications, Take Control of Your Health, and Add Years to Your Life*, they share that plan with you. If you're looking for a drug-free solution to your atrial fibrillation, or have a family history of atrial fibrillation and don't want to suffer the same fate, *The AFib Cure* is for you. Let *The AFib Cure* show you how to live longer, healthier, free from medications, and free from the fear of atrial fibrillation overshadowing your life.
