The Trump Code Troy Anderson, 2024-09-17 Could the Trump family's connections to time travel esoteric knowledge and secret societies hold clues to unlocking the mysteries of our past and future By the end of this book you will be able to connect the uncanny parallels between the novels Lockwood penned over a century ago and the Trump family legacy Additionally you will be able to solve the mystery to the upcoming 2024 election season In the annals of American presidential history there is no more peculiar tale than the eerie similarities between former President Donald Trump and a series of novels called The Baron Trump Collection penned by the obscure yet seemingly prophetic hand of American lawyer and novelist Ingersoll Lockwood in the late 1800s The Trump Code delves into the connections between the Baron Trump novels and the enigmatic Trump family legacy asking whether this nineteenth century novelist foresaw the future of not only Trump but America and the world It also uncovers a web of historical events and divine providence Drawing from biblical passages about Enoch Elijah the Apostle John the Mount of Transfiguration and a mysterious verse in Ephesians on how Christ's followers are seated in heavenly places along with theories of time travel by Albert Einstein Nikola Tesla and others The Trump Code connects the pieces of this riveting puzzle posing the question of whether truth is stranger than fiction as Mark Twain famously said As we peel back the layers of history The Trump Code confronts questions that defy easy answers Could this fictional novel hold clues to the upcoming 2024 presidential election with all its division and chaos Is there a divine hand guiding the course of human events as suggested by the parallels in these novels between fiction and reality Or are we witnessing the machinations of darker forces hinted at by the curious numerology surrounding Lockwood's name
