Iron Mac Andrew M. Homan, 2016-07 At a time when cycling in the United States rivaled baseball as the nation's most popular professional sport along came Reggie McNamara a farmer's son from Australia Within a month of his arrival in the United States in 1913 he had earned the moniker Iron Man for his high tolerance of pain and his remarkable ability to recover from seemingly catastrophic injury The nickname proved justified Not only was he tough he was also one of the best and highest paid athletes in the world During his thirty year career McNamara won seventeen punishing six day races along with an inestimable number of shorter distance races including high profile events on three different continents peaking in 1926-27 at the age of thirty nine The fans media and his fellow professionals all idolized him as an example of the true grit needed to succeed in this grueling and dangerous sport Late in his career however hard drinking and injuries took their toll and McNamara became estranged from his wife and children He fought back just as he always had on the race course conquering his addiction to alcohol and becoming one of the earliest success stories of Alcoholics Anonymous In this humorous and exciting biography of the original Iron Man Andrew M Homan pulls McNamara back into the spotlight depicting a flawed but beloved man whose success in those unrelenting six day races came at a price **Think 2B**

the public and particularly the parents what is going on in schools and why we can't solve the education problem His suggestions are in this book so that the reader can judge for themselves Mr Pirkle believes that more money is not the answer rather we need to improve the learning environment Schools have to be more serious and more professional and less social and less fun His solutions cost no money He feels that this is the problem since everyone involved wants more money and are not interested in discussing free solutions This book will open your eyes **University of London** ,1829
