Special attention is paid to the comprehensible communication of the complex technical interrelationships in the use of artificial intelligence. In addition, the questions of the relationship to the other digital and data law of the EU, above all the GDPR, which arise in business practice are assessed. This becomes particularly relevant, for example, in the case of transparency requirements, technical data protection and risk assessment. Finally, the work addresses practice-relevant liability issues and presents enforcement by the supervisory regime. At a glance: Classification of concrete use cases in regulation by the AI Regulation; AI Regulation in distinction to the GDPR, e.g. transparency requirements, technical data protection and risk assessment; Mediation of technical contexts in the implementation of legal obligations; Liability for AI; Checklists for the use of AI in the company. Professor Dr Rolf Schwartmann is head of the Cologne Research Center for Media Law at the Cologne University of Technology and chairman of the Society for Data Protection and Data Security as well as editor and author of numerous specialist publications on data protection and digital law. Professor Dr Tobias Keber is the State Commissioner for Data Protection and Freedom of Information in Baden-Württemberg and previously conducted research on Artificial Intelligence at the Stuttgart Media University. Kai Zenner is Head of Office for MEP Axel Voss, EPP rapporteur for the AI Regulation and has been intensively involved in the negotiations for the adoption of the law. Besides, he is One AI Member OECD and advises the High Level Advisory Body on AI, HLAB AI, of the United Nations.
